Time Well Spent

STEVEN COX

Time Well Spent

The ones who catch all the flock for the book you hold in your hands are Editors Kathy Norris and Kathy Strout, Assistant Editor Tricia Gregory, the yearbook staff and Sponsor Diane Arnold.

This year we increased our book size to a 9x12 columnar layout with the use of Serif Gothic Italic print on the division pages, Styrmie on the body copy and a special use of Park Avenue letters. The cover was student-designed with black velvet material imported from Sweden, a blind embossed tiger, and gold foil lettering.

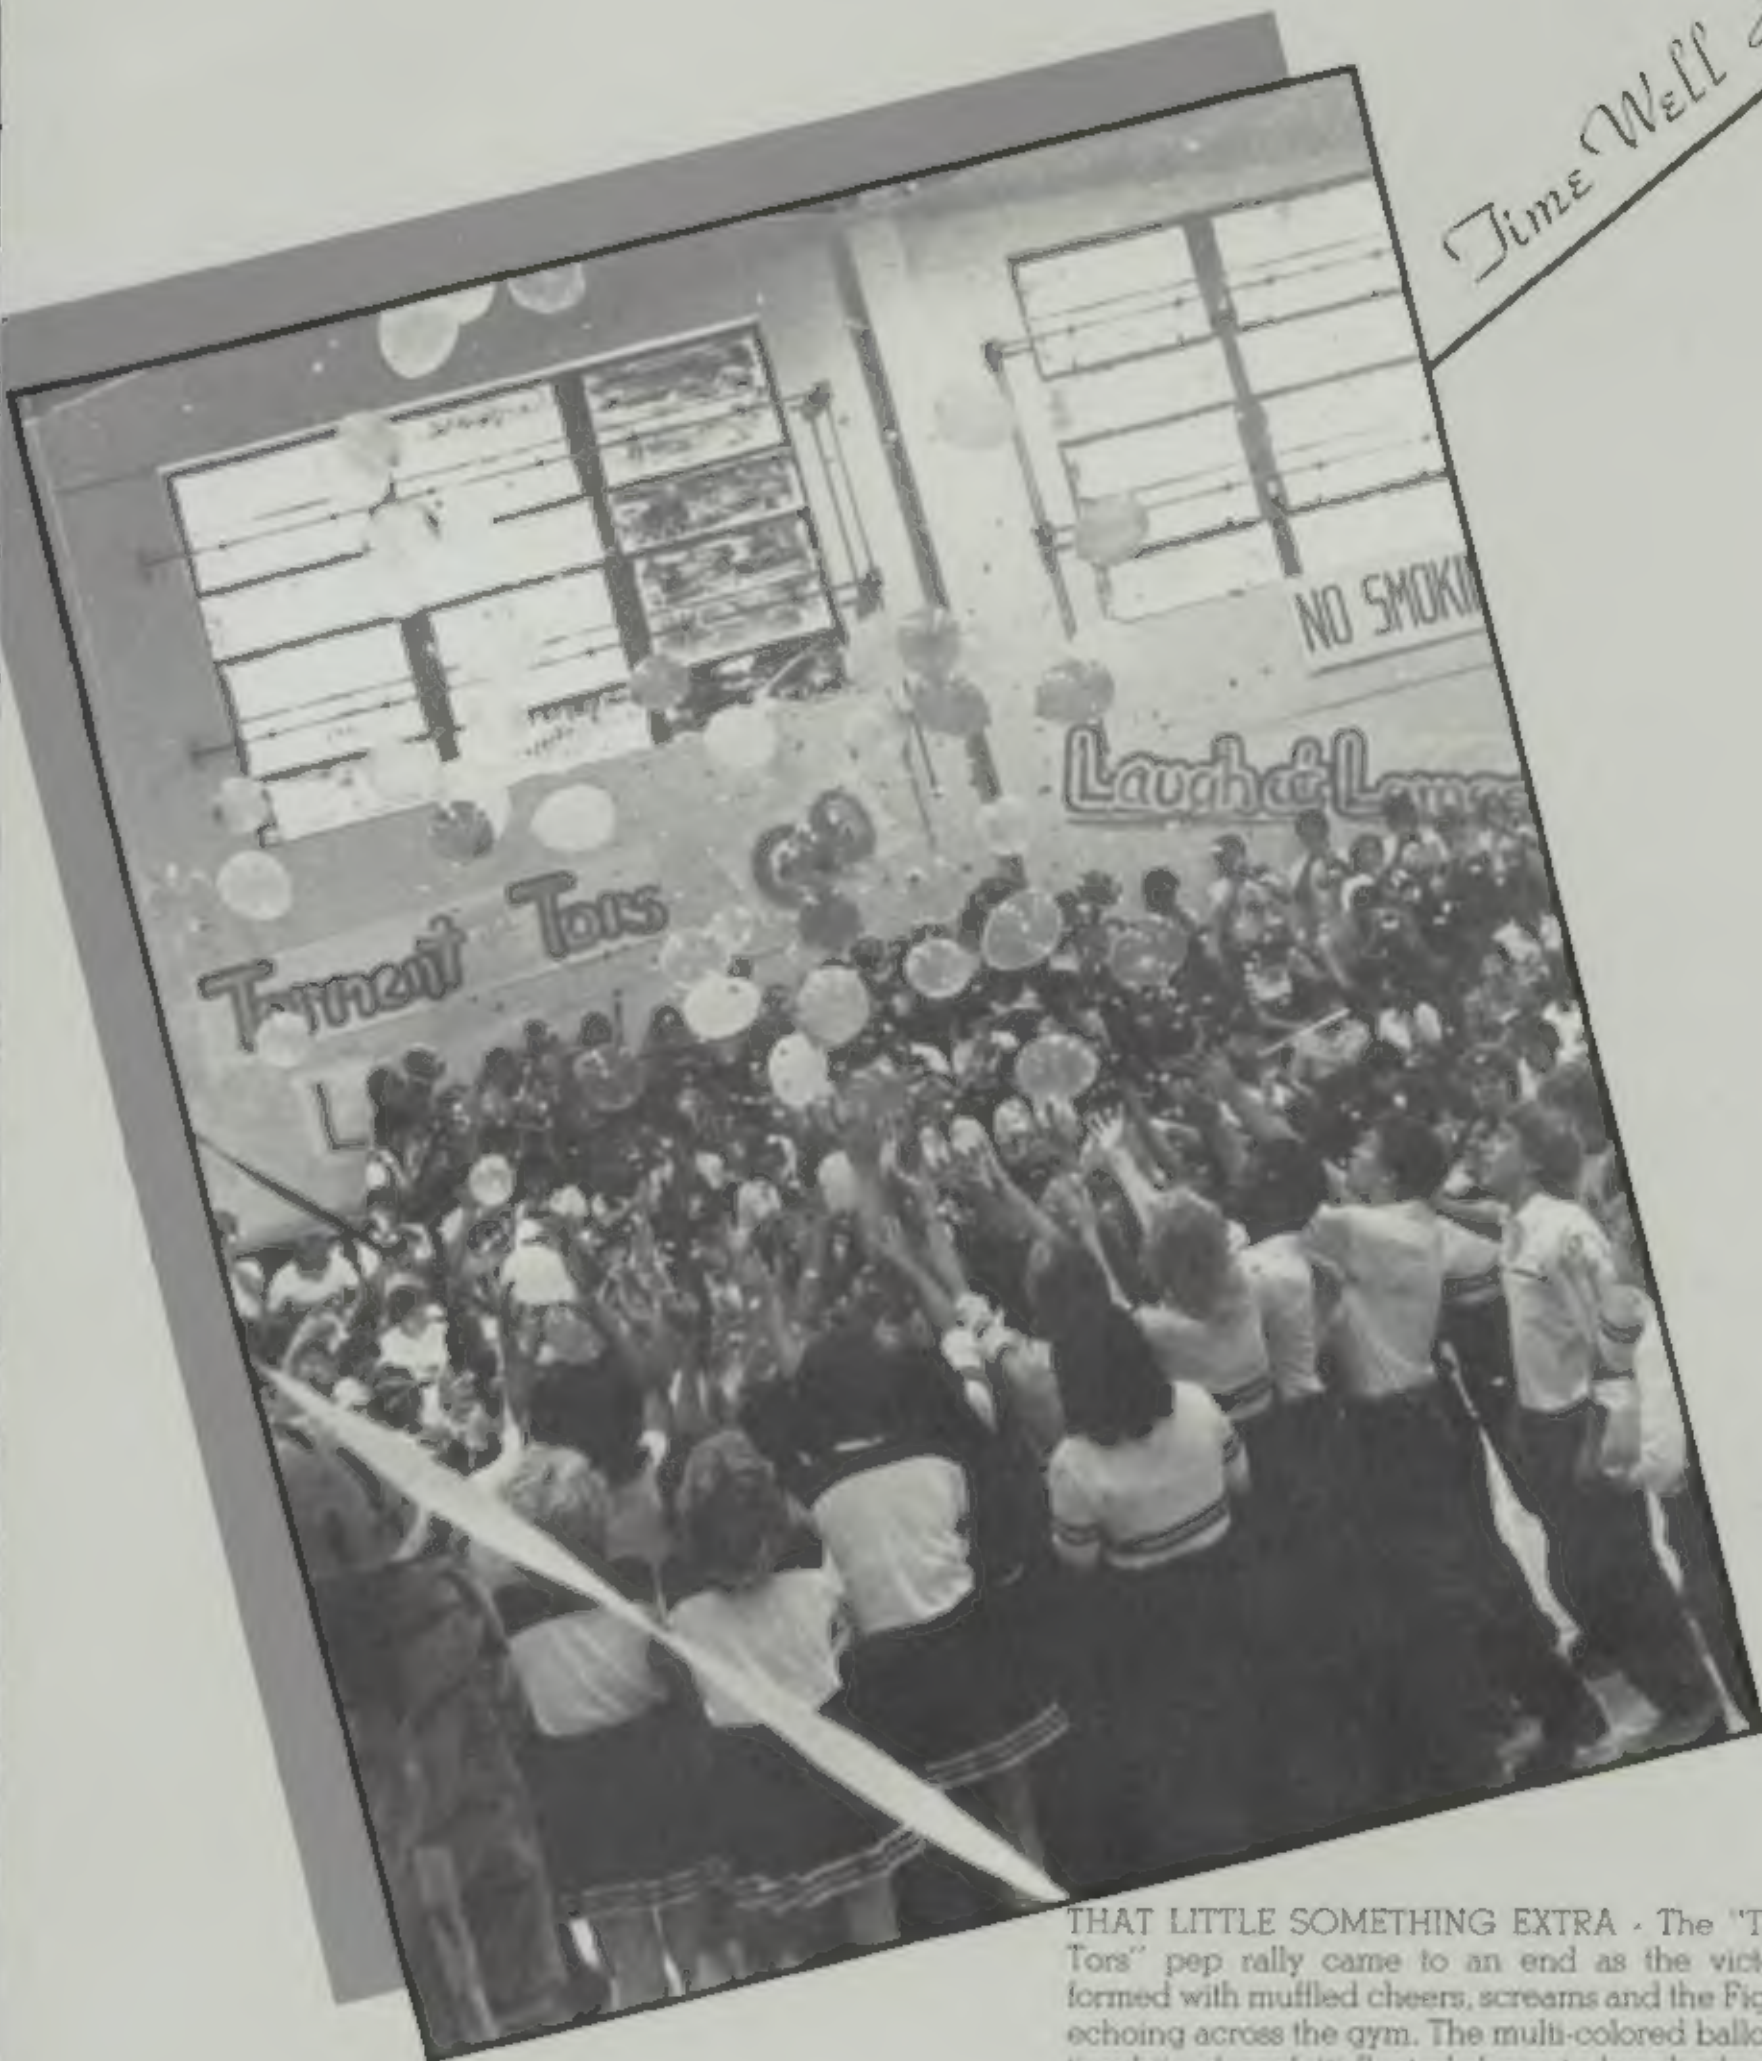

The staff would like to thank Josten's American Yearbook Company, the Interscholastic League Press Conference summer workshop, representative David Farris, plant representative Chris Jensen and Sponsor Diane Arnold.

Your last year's yearbook, THIS ONE'S SPECIAL, received an Award of Distinguished Merit from the ILPC. This is the highest award given to a yearbook and this is the first time The Tiger's Lair has received such an award.

Time Well Spent

THAT LITTLE SOMETHING EXTRA - The "Twist the Tors" pep rally came to an end as the victory line formed with muffled cheers, screams and the Fight Song echoing across the gym. The multi-colored balloons and tiny bits of confetti floated down to hundreds of hands and heads. Thanks to Miss Janie Carter's Resource classes, these added extras provided a special touch.

HEADS UP, with the exception of Senior Lawrence McCown. The Fyimo and Headhunter cheerleaders decided Lawrence was just too hot, so they dunked him in the water cooler.

LOOKIN' GOOD - Junior Penny Noble and Senior Marika Sifton hurriedly put last-minute touches on the drama room before the anxiously-awaited David Rockefeller arrives with his \$10,000 award to the Fine Arts Department.

Time Well Spent

*W*ith the thought of "we're gonna' make this year the best ever" embedded on everyone's mind, this school year started off with a bang.

Like never before, our school pulled together and became one. We all worked together as a team savoring the finest moments and making them last.

With the cheerleaders adding a new special touch to the pep rallies and a shiny new meaning to the word "spirit," people actually became excited and determined to make that feeling unfold and last. It was going to be exciting to see what lay ahead for the school that worked so hard to make the short time we had together well spent.

TAKIN' A BREATHER — Sophomores Reggie Price and Robert Patterson look on as the Tiger tracksters compete in a tournament.

INDECENT EXPOSURE — Senior Joe Boudreau, better known as Bertha Boudreau, a cheerleader for the Headhunters, tries to find just the right fit or proportion for his undergarment in the Powder Puff Pep Rally.

Time Well Spent

on the go

The life style of the students this year was basically the same, with the exception of a few changes. The Teen Center was the new spot for students to hang out on the weekends. The fashions were parachute pants, mini skirts and the Tom Cruse sunglasses look, and emerging from the pop/rock scenes were Van Halen with "Jump" and Cindy Lauper with "Girls Just Wanta' Have Fun." But one thing did stay the same — the parties! Every weekend there was always something "going on." It was just plain fun being with good friends.

HARD AT WORK — Juniors Audra Blackard, Janetta Pylant and Kim Burton layout and organize their plans for the Marti Gras theme at the coliseum for the Junior-Senior Prom.

PICTURE PERFECT — Freshman Angie Lay, Seniors Tim Derryberry and Chris Wiman and Sophomore Karlene Thompson attempt to pose for an advertisement in *The Tiger's Tale* for Snyder Athletic Center.

Life

The winner is . . .

survey shows students' favorite concert, song, singer, movie, album

The top five nominees for concert of the year are Motley Crue/"Heaven," Iron Maiden/"Fastway," ZZ Top/"Night Ranger," Def Leppard/"Krokus," and Kiss/"Riot."

The winner is . . . Motley Crue/"Heaven!"

This is a sampling of the results of a survey taken of SHS students to determine their favorites in concerts, songs, singers, movies, kinds of music, album, the comeback of the year and disappointments of 1983-1984.

The top five (in order of preference) singers were Vince Neal, Bruce Dickenson, Kevin Dubrow, David Le Roth, and Joe Elliot.

The top five songs were "Mental Health," "Come on, Feel the Noise," "Flight of Icarus," "Shout at the Devil," and

"Love Bites."

The nominees for favorite movies were "Christine," "Heavy Metal," "Porky's," "Rocky III," and "Return of the Jedi."

The top five favorite groups were Motley Crue, Led Zepplin, Def Leppard, Judas Priest and Iron Maiden.

Favorite kinds of music were heavy metal, acid rock, soft rock, country and hard rock.

Best seller favorites were "Mental Health," Quiet Riot, "Shout at the Devil," Motley Crue, "Pyramania," Def Leppard, "Thriller," Michael Jackson, and "1999," Prince.

Comeback of the year was Kiss.

Disappointment of the year resulted in a tie between "Surf II," and Rick Springfield.

WEEKEND

The whereabouts
of a SHS teenager

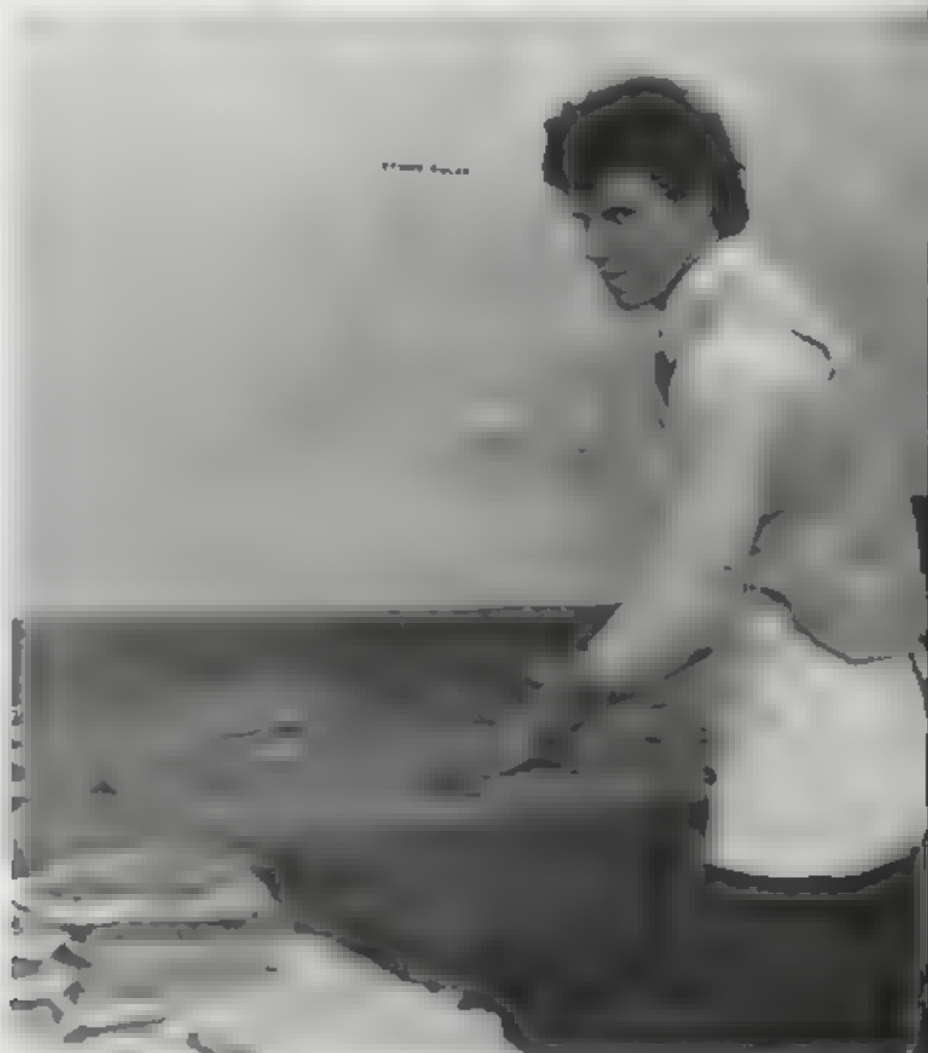

The book of Genesis in the Bible says that the world was created in six days and the seventh day is Sabbath was a day of rest and worship. The ancient Egyptians considered the seventh day as a day of rest and joy. And it is considered as such today. For teenagers, a weekend means time for fun and recreation. They use the time to get socially involved and acquainted with each other at different whereabouts.

Upperman Kather Rodriguez said, "I hang out at the park because all my friends are there and there is a lot of stuff we do."

Others, I mean simply getting out of the house. Like going to the Teen Center or bowling alley because it's better than being home," said Freshman Becky Limington.

For various reasons a weekend is something all teenagers look forward to.

Joanie Solis

The motocross season is in full swing and the riders are competing for the top spots. The number 12 rider is a strong contender and is expected to win the upcoming race. The competition is fierce and the riders are pushing themselves to the limit.

The group of people are gathered for a meeting or a discussion. The children are listening attentively to the adults. The atmosphere is calm and focused.

Weekend Nights

Play and gossip

Most teenagers spend their weekend time at night at the Teen Center, Leisure Time or the bowling alley.

Some go to these places to play video games, pool or to dance. "I like to hang out at the Teen Center for a while then go out and have some fun. One reason is to get out of the house. Another is that it is a lot of fun to play football and dance, which I like to do," said Junior Bobby Velasquez.

Others go out of town in order to have fun. "The reason I like to go to the Sweetwater is to have dancing (dancing) contests," said Freshman Jeffrey Rose.

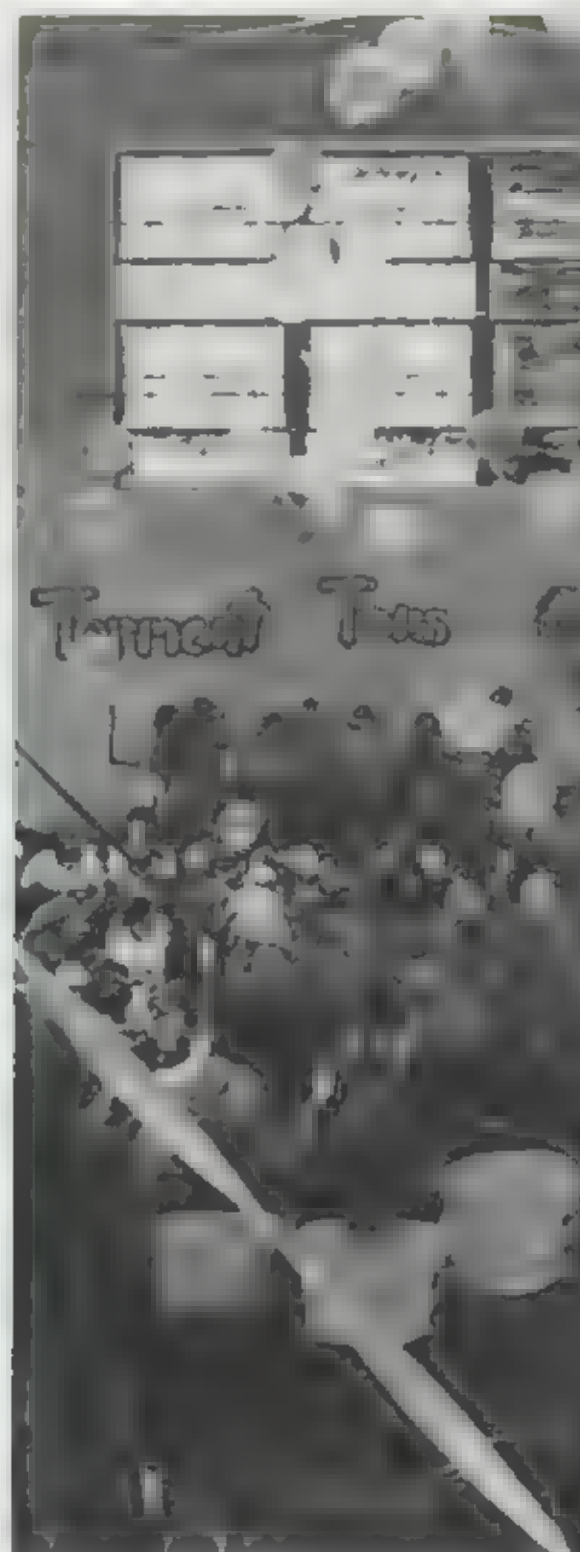

Others go out to be with their friends and to gossip. "I usually like to hang out at the Teen Center. I like to go there because all my friends go there and I like to play pool," said Freshman Jimmy Velasquez.

And still others just ride around the "drag", looking for friends and excitement. The only bad thing about weekends is that they're only two days long and five days apart.

FUTURE

A black and white photograph showing a group of people, possibly a family, standing in front of a building. The building has a large, multi-paned window. A sign that reads "NO SMOKING" is visible on the wall to the right of the window. The image is somewhat blurry and has a high-contrast, grainy appearance.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

from the beginning of the year to the end of the whole year was full of spirit
Elizabeth Harris

The first of the two men is standing, wearing a white t-shirt and dark pants. The second man is sitting on the floor, also wearing a white t-shirt and dark pants, and is holding a dark bag or box.

Spare time fads

change, come and go with students

T

he spare time fads of students change, come and go with the seasons. As the school year progresses, students find new ways to spend their free time. Some fads are short-lived, while others last for years. The fads of the past few years have included video games, computer programming, and the Internet. These fads have changed the way students spend their spare time and have become a part of their lives. The fads of the future will be different, but they will also be a part of the student experience.

Halloween again

Clowns, punk rock stars, others do things a little differently this time

It was Halloween again but this year things were done a little differently. For instance the Future Homemakers of America Halloween Party. People dressed up like clowns, punk rock stars, cow girls, and other creatures that the students could dream up. About 20 people showed up for the festivities.

Mary Lou Gonzales won the best costume award which earned her a pair of huge sunglasses.

Games played were Murder, Fortune Telling, Passing the Lifesaver, and others to keep them entertained, Mrs. Carolyn Derouen said.

A Spook House was held at the Jerry P. Worsham auditorium for the public. The Spook House was a money-making

project by the Drama Department.

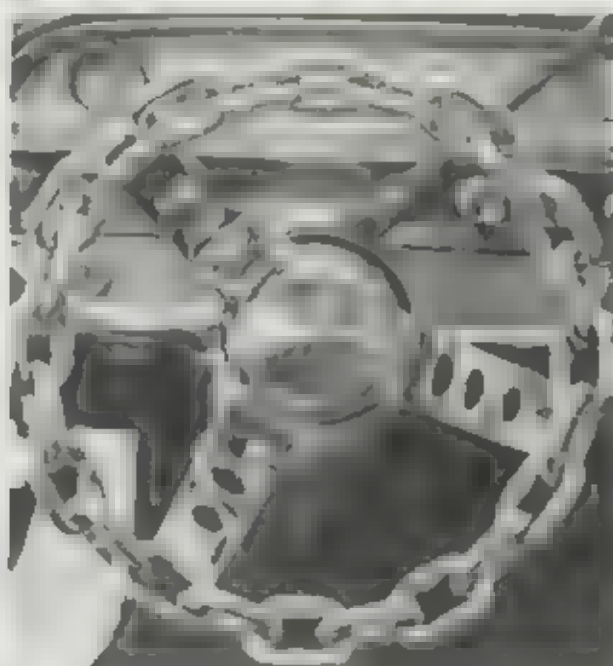

"The Spook House was held in the auditorium because of their extensive stage facilities including lights, sound, costumes, etc.," said Jerry P. Worsham. They made approximately \$650 on the event and about 325 people went through it. The money was used for various Drama Department projects such as the spirit signs for the Football team and Christmas banners and also for traveling. The students helping with the event were Freshmen Brad Vincent and John Gernertt, Junior Bob Spikes, Seniors Cherie Curlman, David Etheredge, Mike Everett, Larry Light, Sharmon Briggs, Laurie Donelson and Kathy Norris.

 blew in on Snyder Feb. 26. (Tiger's Lair Staff Photo)

DO NOT ENTER — it that's how the sign reads when it is covered with snow! Obviously these vehicles were taking advantage of not being able to read the sign as they entered Tiger Drive (Tiger Lair Staff Photo)

Local residents learn not to trust weather forecasts

Tomorrow, ladies and gentlemen we can expect a temperature high of 80 degrees, south-southwesterly winds at 2-5 mph and low humidity."

This is the type of weather forecast everyone loves to hear. When they hear about a high temperature and low winds, they get excited about having a beautiful day to be outside — free to work in the yard, sunbathe, go waterskiing, swimming, play tennis; you name it, they do it!

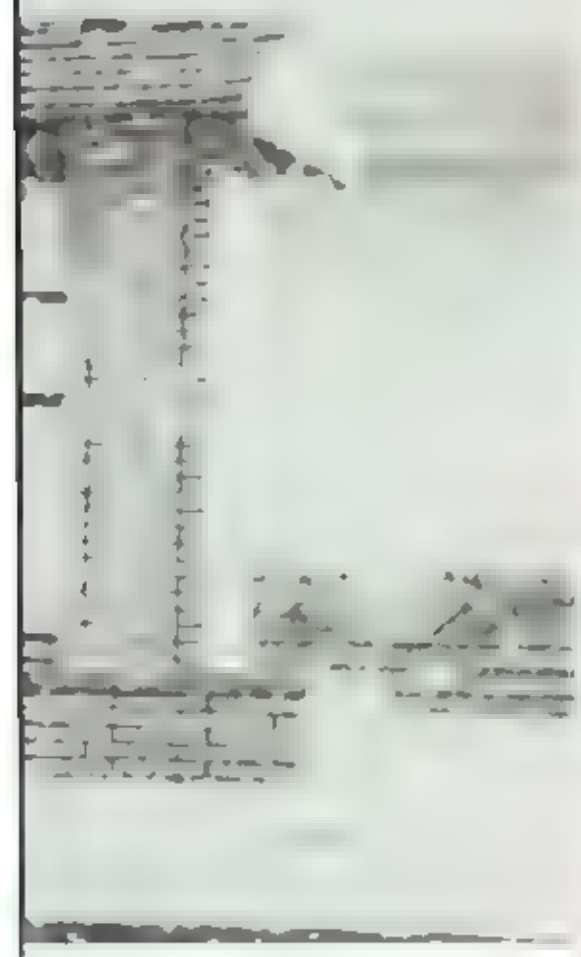

But how many times does the forecast actually come true? How many times were we expecting a gorgeous day and the winds blew Lamesa through our fair city? Or how about that weekend it was going to rain and snow? It got up to about 70 degrees both days!

Remember the day we got out for

Christmas break? That was the beginning of what we all thought was the "roughest winter we'd ever had!" The temperature got down to below zero (like -6 degrees!) and the snow and ice came and were treacherous to any who dared to venture out in it!

How about that Sunday in February when we were all hoping spring was near (even though Mr. Groundhog predicted six more weeks of winter) and it came a blizzard! Visibility was next to nothing! The winds were blowing and snow was piling up! Then a few hours later, just nearly as fast as it had come, it was gone!

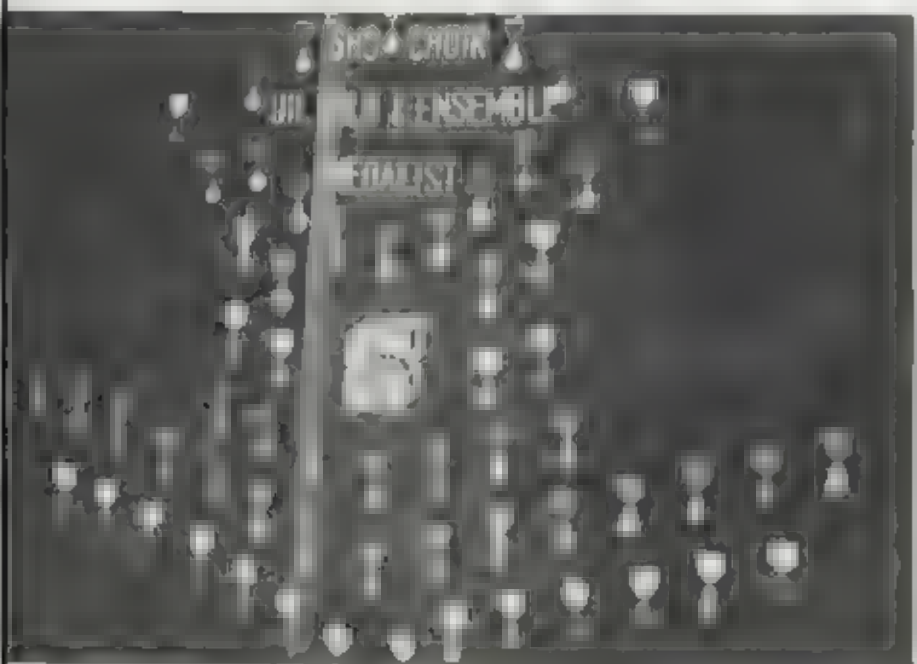

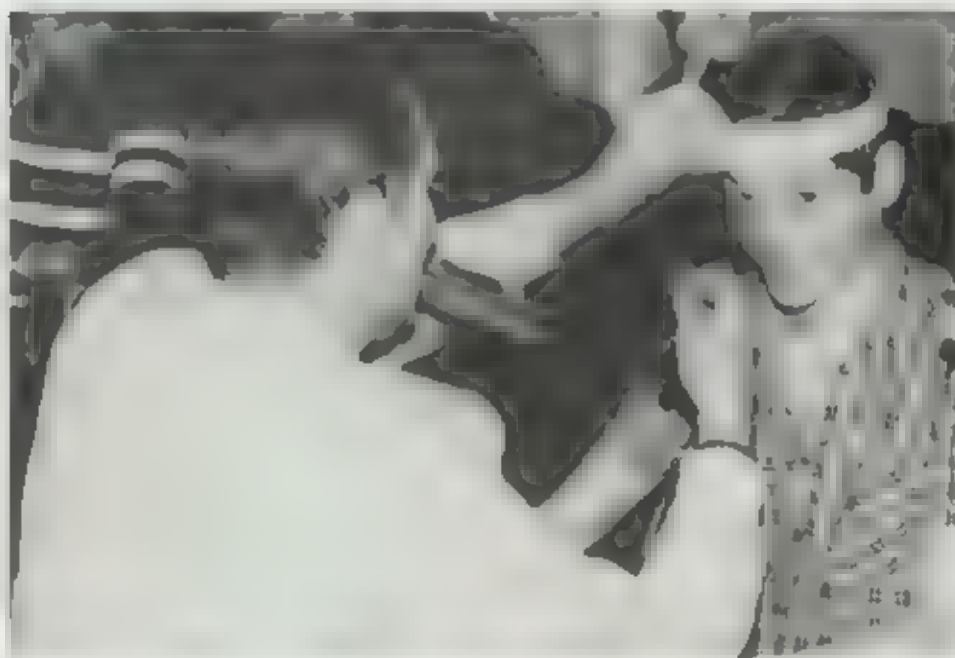

Lots of people gripe about living in "boring" Snyder. But in no way is our weather boring! And unpredictable can be fun!

SNOW COVERED SHS — Yes, it's the old school building, barely seen through the flurry of snow flakes. Other times during the year the building was hidden by sand storms, rain, sleet, and every now and then a pretty day would permit the building to be seen. (Tiger Lair Staff Photo)

Spring Fever

strikes with excitement

Spring Fever Week struck at SHS and all with excitement. Most of the participants seemed to agree that the week they were in made their life more fun. And some were truly unique with their outfits.

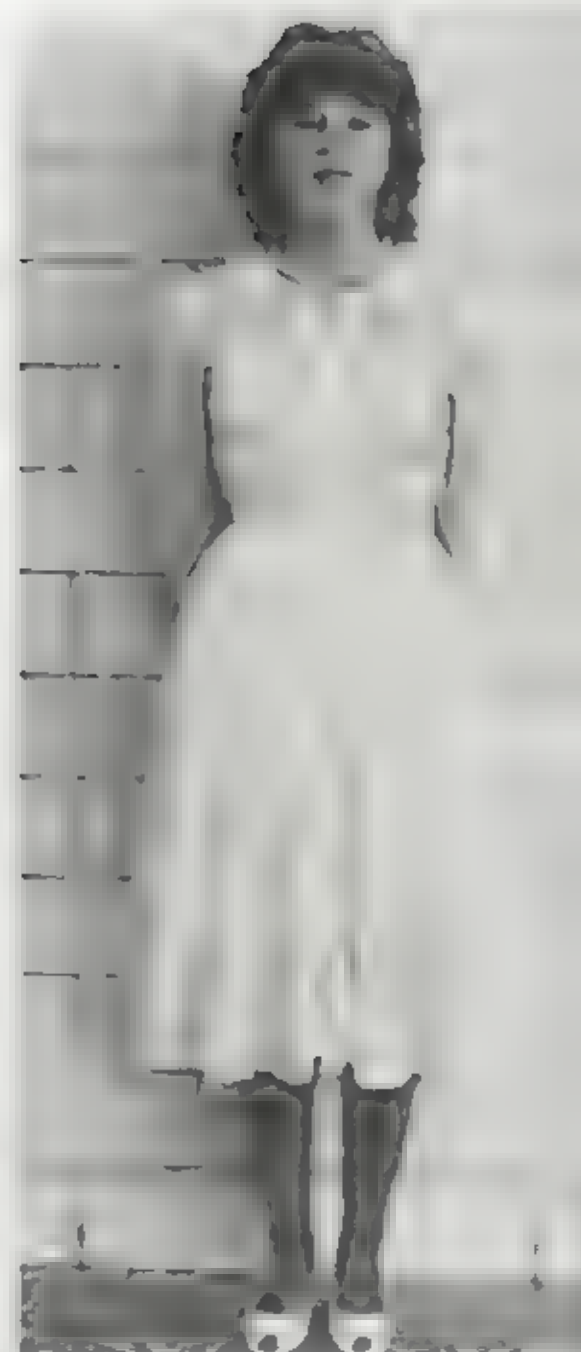

Spring Fever Week is not for everyone and those who didn't dress up said they felt uncomfortable about dressing up.

Even teachers got involved and that was especially good because it showed support throughout the school. Mr. Peek dressed up because, "It adds variety to the day. I think everybody should participate in all phases of school life."

Most everyone said that their clothes did influence their moods and how they felt that day. Senior Sandy Thorne said, "My friends really don't influence my decision to dress up. If I want to dress up and participate in Spring Fever Week, they will, whether or not they do." Senior dress up because of their friends. Freshman Jerry Villarreal said that his friends influenced him because they were cool.

The last day of Spring Fever Week was 'warm-up day,' which ended this unforgettable week at SHS.

Preparation, students required to make Prom possible, successful

It was a long, hard job, but the prom committee members were determined to make it all possible. They were the ones who have spent the last few weeks helping to make the prom a success.

According to Brian, the chairman of the committee, the work was not an easy one. It was the New Year's Eve party which was the first of the three. After this three more parties were held with the prom committee members. The appropriate time for the prom was chosen.

The work of the committee was not only in the planning and assembling of prop decorations at various barns went on every night and most weekends. But every prom commit-

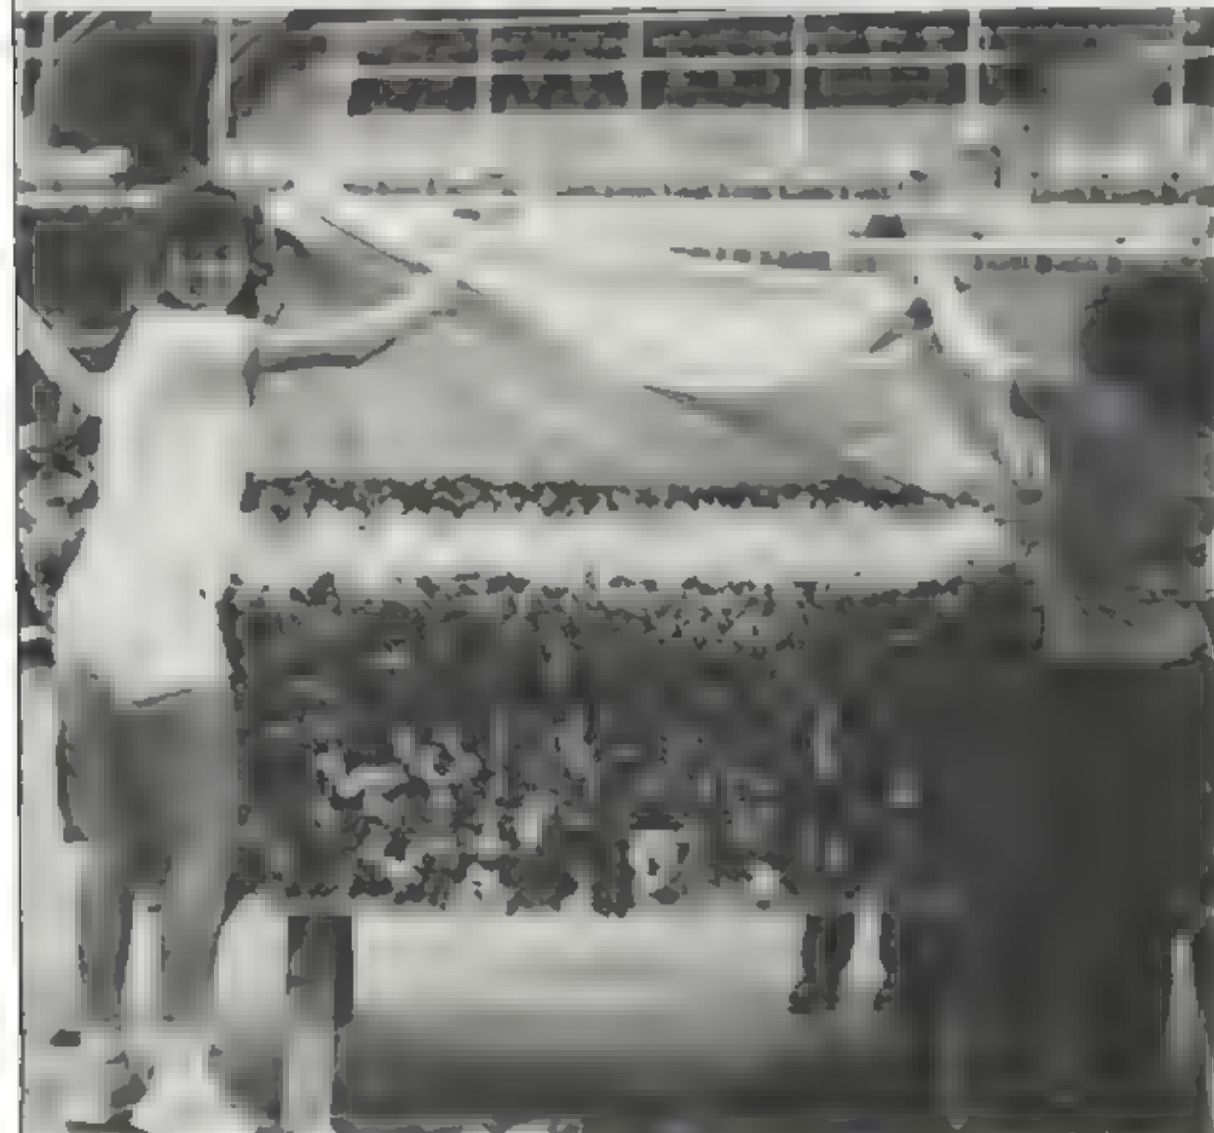

tee was busy doing its own responsible work.

The week of the prom was a busy one. It moved into the coliseum and the decorating began. This was an every night at the coliseum with late, late working hours. The tickets for the prom were sold during the week. On the day of the prom preparations were made for the photographer, the musician set up ("Dr. Toons" from Austin) and other last minute things were taken care of.

It was a hard job, but the prom committee members arrived at the coliseum and the work was done.

So the prom was pretty hard work for the 25 members of the junior class and the prom committee. They were all very busy and the work was done.

Prom rates as special

Juniors, seniors get together for a good time

The prom was a special night for all the juniors and seniors. It was a night to remember, a night to celebrate the end of high school and the beginning of a new chapter in life.

The night started with a warm-up dance. The DJ played some of the best music, and everyone was having a great time. The prom was a night to remember, a night to celebrate the end of high school and the beginning of a new chapter in life.

Evidence of Texas tradition given by Scurry County historical markers, landmarks

What is Texas tradition? "We definitely have a rich and proud heritage here in Scurry County. When I think back to the earliest times, I tend to think of a grassy prairie where the Indians and buffalo lived. It must have been nice with no sandstorms, being that the and was still covered with grass. Later, I can see Scurry County as being a friendly but typically tough western town. But most of all, when you think of Scurry County, you think of oil. It made rich people out of ordinary folk and enabled us to enjoy the best of both worlds."

community with nice schools, libraries, parks, streets, and other things. Most of all, I'm proud to say that the number one Texas tradition in Scurry County is that it is a friendly place where people help one another." That's what Coach Rick Howell had to say about the Hardisty band. The white buffalo was seen by J. Wright in 1876 and the day was held Oct. 11 last year. To start the tradition, the band was led by the Hardisty band. The tradition is a part of Scurry County.

the Hardisty band. The tradition is a part of Scurry County. Another tradition is the Scurry County Fair which was held the third week of the year. Different contests could be entered too. The tradition can mean many different things to different people but it's definitely a part of Scurry County. —Denise Yandrich

THAT'S RIGHT! WE BAD! The attire the Fyimo coaches decided on for the powder puff pep rally were sunglasses, suit coats and shorts. Although the Head hunters beat the Fyimos 6-0, Senior Ricky Vaughn and Tommy Hunter show they mean business.

Time Well Spent *with each other*

*S*ure, we come to school to learn but what makes all this learning bearable are our friends and the people in school. Without them, the day would be that much longer. It was not always smiles and apple pie though. We had our differences and we had our little cliques, just like any other school. But every now and then, we broke down those barriers and made new friends and accepted new ideas. We learned from each other. With each other, we changed and matured through the year; we helped each other get through and in the end, grew closer together.

RIDE THE MUSTANGS — Brenda Otto (Bird Brain Bertha), Jerry Worsham (Lazy Larry) and Kay Hopper (Mrs. Sunshine) were only a few who participated in the traditional teachers' skit for the Beat An crews pep rally.

THINK TRACK — Senior Anderina Kitchens concentrates on a good hard workout for the cold day ahead. All their long hours and determination paid off when they placed fifth at regional competition.

10 years into the future

Wonder what she will be in 10 years. What if there is a full-on global war? What if her son's half-Mexican friend turns out to be a terrorist? But the class of '84 has had a head start on their futures.

in fact with Billy Newman as my driver
said Todd Turner

I was the owner and manager of the Big D Range Club at Bear River until I gave up the place to my son-in-law Jim Deeryberry.

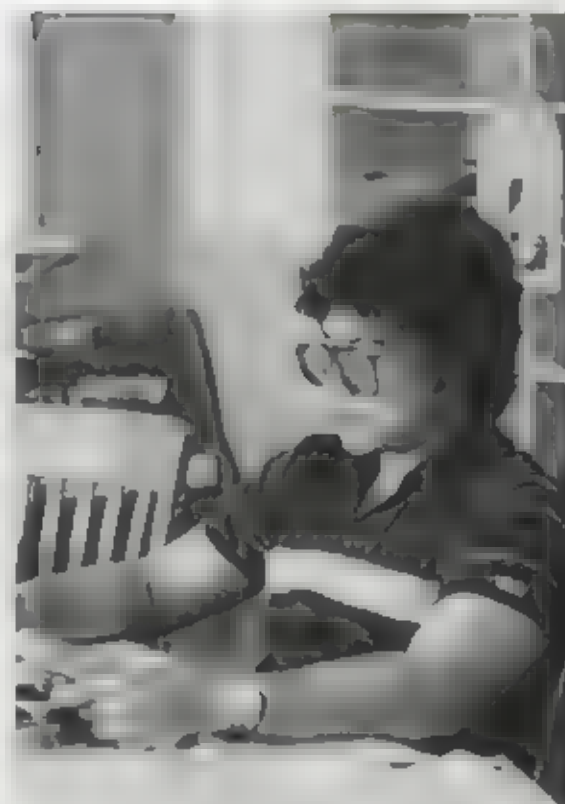

In 17 years, people have actually graduated from high school with more than a home intercom system installed in their home. That area, Sharada E. said.

Tim Derryberry, a 1984 FBI graduate, and Karla G. Smith, a 1985 FBI graduate, were the first FBI graduates to be sworn in.

Report of James M. ...

Two foreign students
discuss different views

Foreign Exchange Student Lars Olsen gained the reputation of "the quiet one" during his stay in Sweden, but to tell him "he was a quiet Norwegian" is "like talking with a stone." "People are my hobby—watching and talking to them—and I love it. Most of them want to be one of you."

With most of us grown up in the Texas, it is hard to picture shocked by the flat fields and meadows. Orlien adm. was "I was told it was like a desert" nowhere, to a desert " Eventually he did get used to everything and the sandstorms Orlien said it was like the yard when I expect a sandstorm When I came in I was and everything tasted of sand for the next 24 hours. It was like

Green was warned by his New York friends to beware of American food. "All of it was so big and greasy," his friends said. I would eat it all the sweets. They really loved the food. His favorite meals were trout or chicken fried steak. He was famous for ordering hamburgers when taken out for steak.

American food was not the only thing
Orjen found different about the

Your letter of June 14th, 1914, re-
ferring to the "Pierdore" is in receipt
of, everything is in New York and will
be sent to the printer as soon as the
proofs are received. The book

Extracurricular activities and the system of education seemed to be on the minds of many of the visiting foreign students. "The problems I had were with my extracurricular activities. It's sad that they're trying to take away with them. It was with the extracurricular that I felt the group and I were being an outsider. In my country we don't have the chance to get involved," Orlien said.

“The [redacted]sswood's are who I'll miss the most. We always had a [redacted]ss the warm weather and a [redacted] the friends I've made.” [redacted] [redacted] “I really admire American [redacted] their free spirit. They dare to [redacted] [redacted] [redacted] They're not afraid to be themselves like that,” he added.

Who in the world would want to
go down there? It's a hell hole.
They say it's the worst place on Earth.
It's a place where you can't see the sun.
The temperature is below zero.
The United States is equivalent to
the hell of the sophomores.

—explained that back in his home-
land, he had been a member of the
same organization. He had been a
member of the same organization for
years. He had been a member of the
same organization for years. He had
been a member of the same organiza-

and Egnell, "However I do think the discipline is a bit overdone. There's too much of it. I like to be able to choose my classes. You can do that in Sweden," he added.

He also said that there is no extracurricular activities in Swedish schools. "In the U.S., extra activities are great. I know how many people spend too much time on them and don't learn what they should, but as long as they pass their classes, and get the credits, they should be able to participate in at least one or two," Egnell said.

Another part of U.S. schools that appealed to him was participating in sports. "There are no school sports in Sweden. We compete in what we call clubs where different towns compete in track, soccer and basketball. To me it seems like sports in school gives more life to it," Egnell said.

His hobbies include photography, weightlifting and swimming. But running takes up most of his time. Depending on the weather and other factors, Egnell runs up to 25 miles per week. In his spare time, he watched TV at his host family's home, the Jimmy Keys. "I really like the Keys. My favorite time with them was when we were skiing in Ruidoso," Egnell said.

When school was out, he planned moving to Lubbock to get a taste of life. He was due back in Sweden July

Secrets, advice Best buddies stick together

Friendship is forever—not just in the spring, but fall, winter and summer! There are best friends—friends who will listen, talk, cry and laugh with each other. However, best friends do not necessarily have to be the same sex.

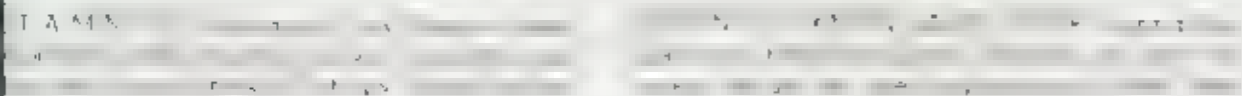

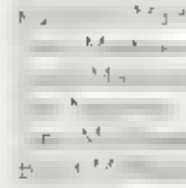

It feels the same to have a best friend of the opposite sex because you can ask him or her certain things that the other can't answer," said Freshman Betty Carrasalez.

"A good friend is either the same sex or the opposite sex because everyone is the same," said Freshman Vince Valdez.

"When I'm with my boyfriend I feel very special because I know I have a friend as well as a boyfriend," said sophomore Stephanie Weaver.

Men get into wearing earrings

Not just for girls

"Next thing you know they'll be wearing a dress," said Assistant Principal Ned Underwood.

It shouldn't be a surprise that earrings are not just for girls anymore. Boys are getting into the act, too.

Just as women broke the first barrier to wear pants, men are making a path and wearing earrings.

Junior Brett Martin said, "I wear an earring to express my individuality. It's part of my rebellion against some of society's narrow minded ideas about who should wear what."

Sophomore Chad Browning said, "I wear an earring to

prove I'm not a prep and that I'm cool and a good guitar player. That's the way all heavy metal rockers do it."

Licenses . . .

A big thing in life

How much fun would it be to be a student at Snyder High without a driver's license?

According to Sophomore Karen Bly, it really wouldn't matter to her whether she had her driver's license or not because she could always have a friend to pick her up that does have a driver's license.

Freshman Katrina Reed quoted, "I consider having my driver's license a big thing in my life because you can't always depend on your friends for a ride."

Junior Daniel Salazar stated "It's a lot better to have your driver's license because it's a start for you to take responsibility for yourself."

Albert Law, junior, said that he had his driver's license and that it was a big thing in his life. He said that it would make his stress and his way of life a lot better to drive.

Sylvia Valdez

Alice, sophomore, said that she had her driver's license and that it was a big thing in her life. She said that it would make her life a lot better to drive.

The station wagon

Favorites . . .

Light, Vincent chosen

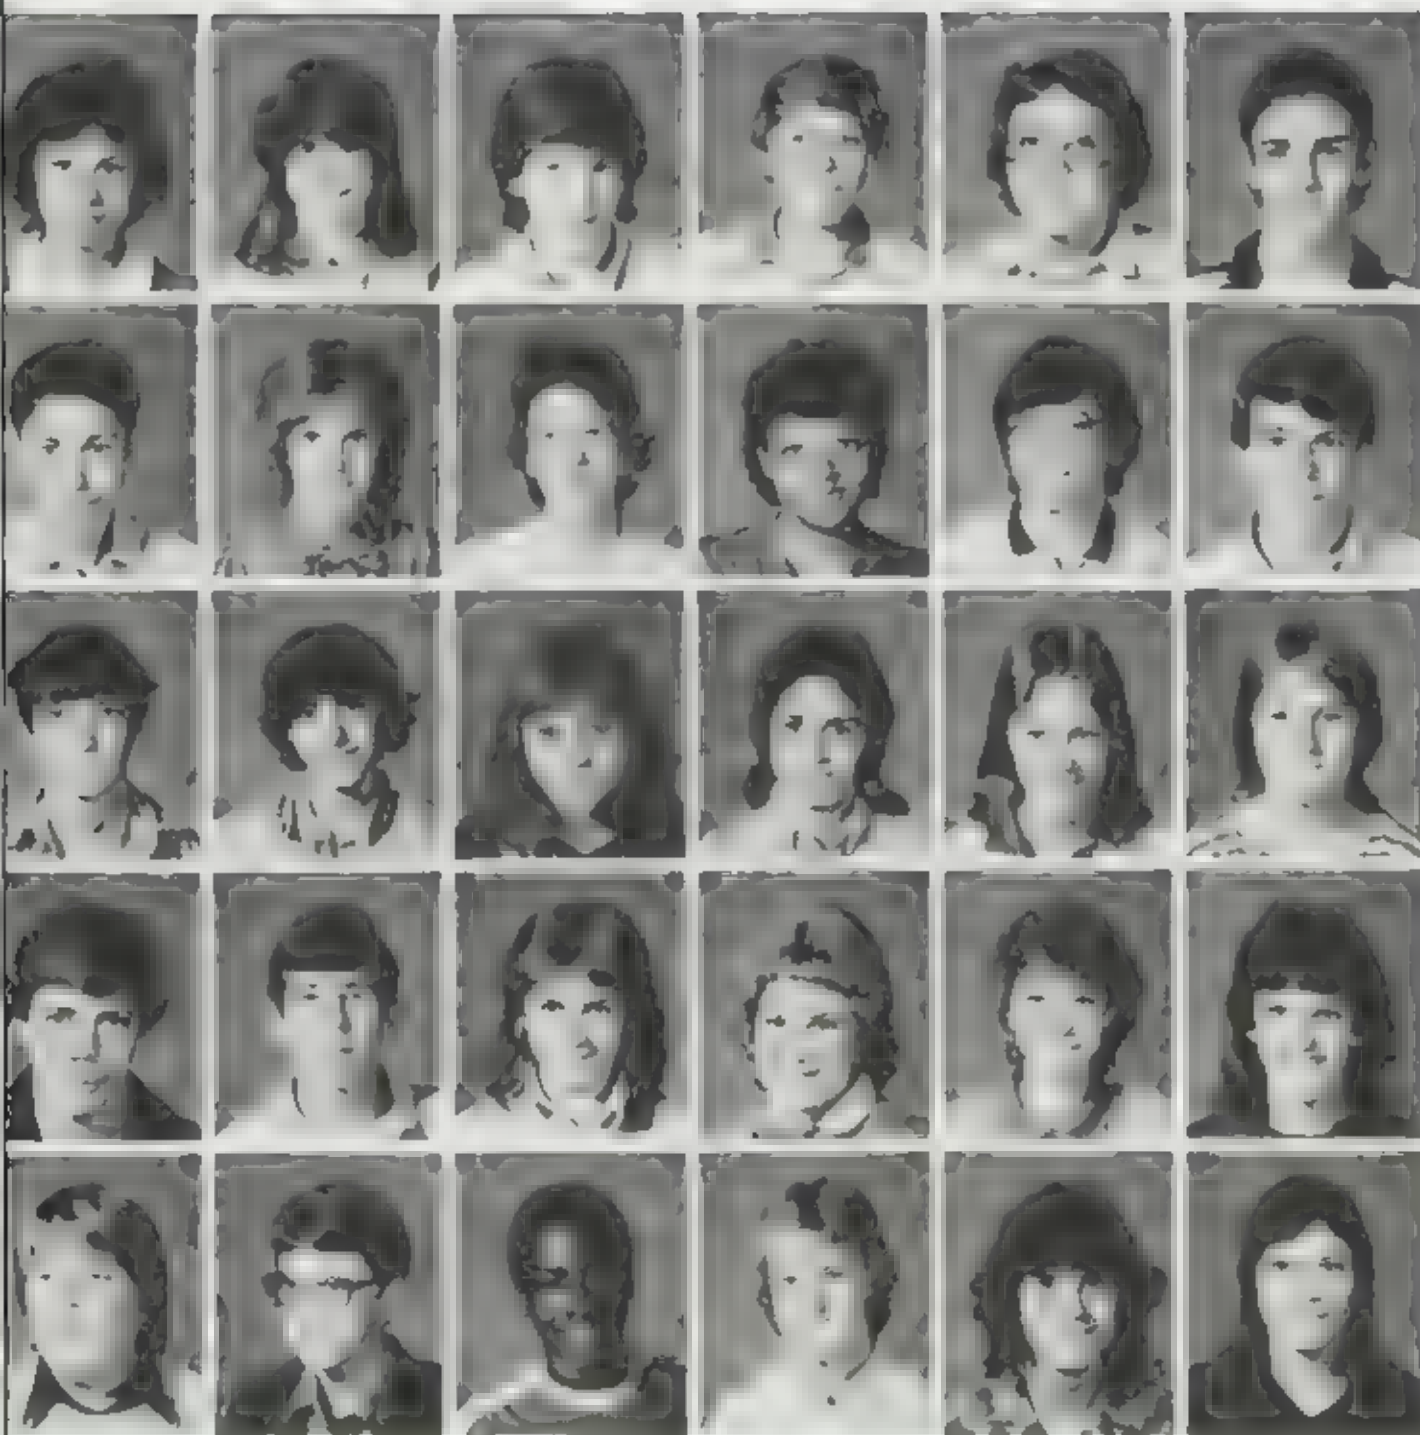

Freshman class favorites chosen for 1983-84 were Lesse Light and Brad Vincent.

Light was class vice president and cheerleader. She was in Fe. whip at Christian Athletes and on the golf team.

Vincent was class president and also a member of FCA. He played football and basketball.

Freshman life - is it really that bad?

By now everyone has had a taste of freshman life, whether good or bad. With all the hassle being picked on and the trouble the freshmen receive their first year in high school, it's a wonder anyone survives! But, is it really all that bad?

According to Freshman Tonia Robinson, "I think high school is great! I've made a lot of upperclassmen friends, and I don't think upperclassmen pick on you as much as every one says."

"It's not so bad to be a freshman," explained Mark Helms, "because the upperclassmen haven't hassled me; they've helped me."

Melody Schwarz said she likes high school because it is a lot better than junior high.

There are times a freshman may wish he or she wasn't a freshman, though. Mark Doty said, "I don't like it when

there's a lot of pressures put on you and the upperclassmen hassle you to do what they want to you."

Perhaps some freshmen have had to cope with what they've had to cope with against an upperclassman (maybe in band, drama or choir). Karl Menges said that it didn't bother him to be the underclassman; he still tried out for one-act and choir.

Jenny Goodwin explained "I can't wait until I'm a senior so I can have all the advantages a senior has. Being a freshman is okay, though."

But what about the upperclassmen? How do they feel about freshmen? "It's fun to tease them," said Junior Sonya Adams "but that doesn't mean they're not worth anything."

Senior Ricky Vaughn had another way of looking at freshmen. "If it weren't for most freshmen, upperclass

men wouldn't have anyone to give a hard time to."

Being a freshman may have been bad enough for some but what about having an older brother or sister in school with you?

It's not always fun being a freshman while my older brother is a senior," said Leslie Light. "But he's not treating me as bad as I thought he would."

Larry Light explained that he thinks it's neat "This way, I can give advice and make sure her first year in high school won't be lost."

Freshman Stephanie Blair said that it's pretty neat having an older sister in school with her. "That way I know she's there if I need something like a ride home or to eat lunch."

"I like it," Shahala Blair said "But we're real close anyway."

Senior DeWayne Williamson said that it's not that bad

having a younger sister in school with him. He knows about his business and she knows about her's. But it can cause problems."

"It doesn't really bother me having my brother in the same school; sometimes it's neat."

The only time he has heard me about something is when I do something that he thinks is stupid and he'll say, "That's fish for you," Tammy Williamson said.

But look at it this way, 1984 freshmen, by the time you read this, you'll be on your way to being an upperclassman and no more "fish" for you!"

'I'm always moving!'

He 'just likes to dance'

Popppin'!!
Break Down!!

No, it's not a new commercial for a breakfast cereal - it's the kind of dancing Jerry Villarreal does!

This Snyder freshman has had the 'dance fever' since he was three. He didn't start "poppin'" until the seventh grade.

Villarreal says he just "likes to dance" like his dad. According to him, though his parents think he is crazy and wild, but they like it.

Villarreal likes to do one other type of dance, besides poppin' because "it is more fun and it is fancier looking."

So far he has competed in three dance contests, winning first place twice and second once.

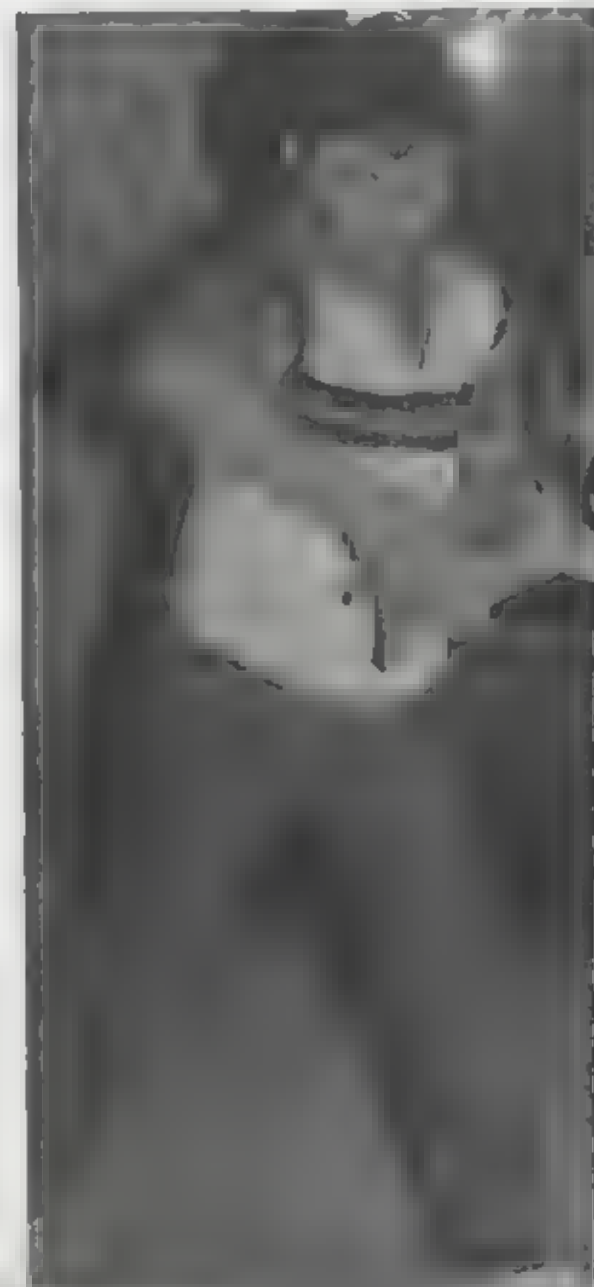

His favorite dancer is Dewayne Jackson who is a member of the band, "Debarge."

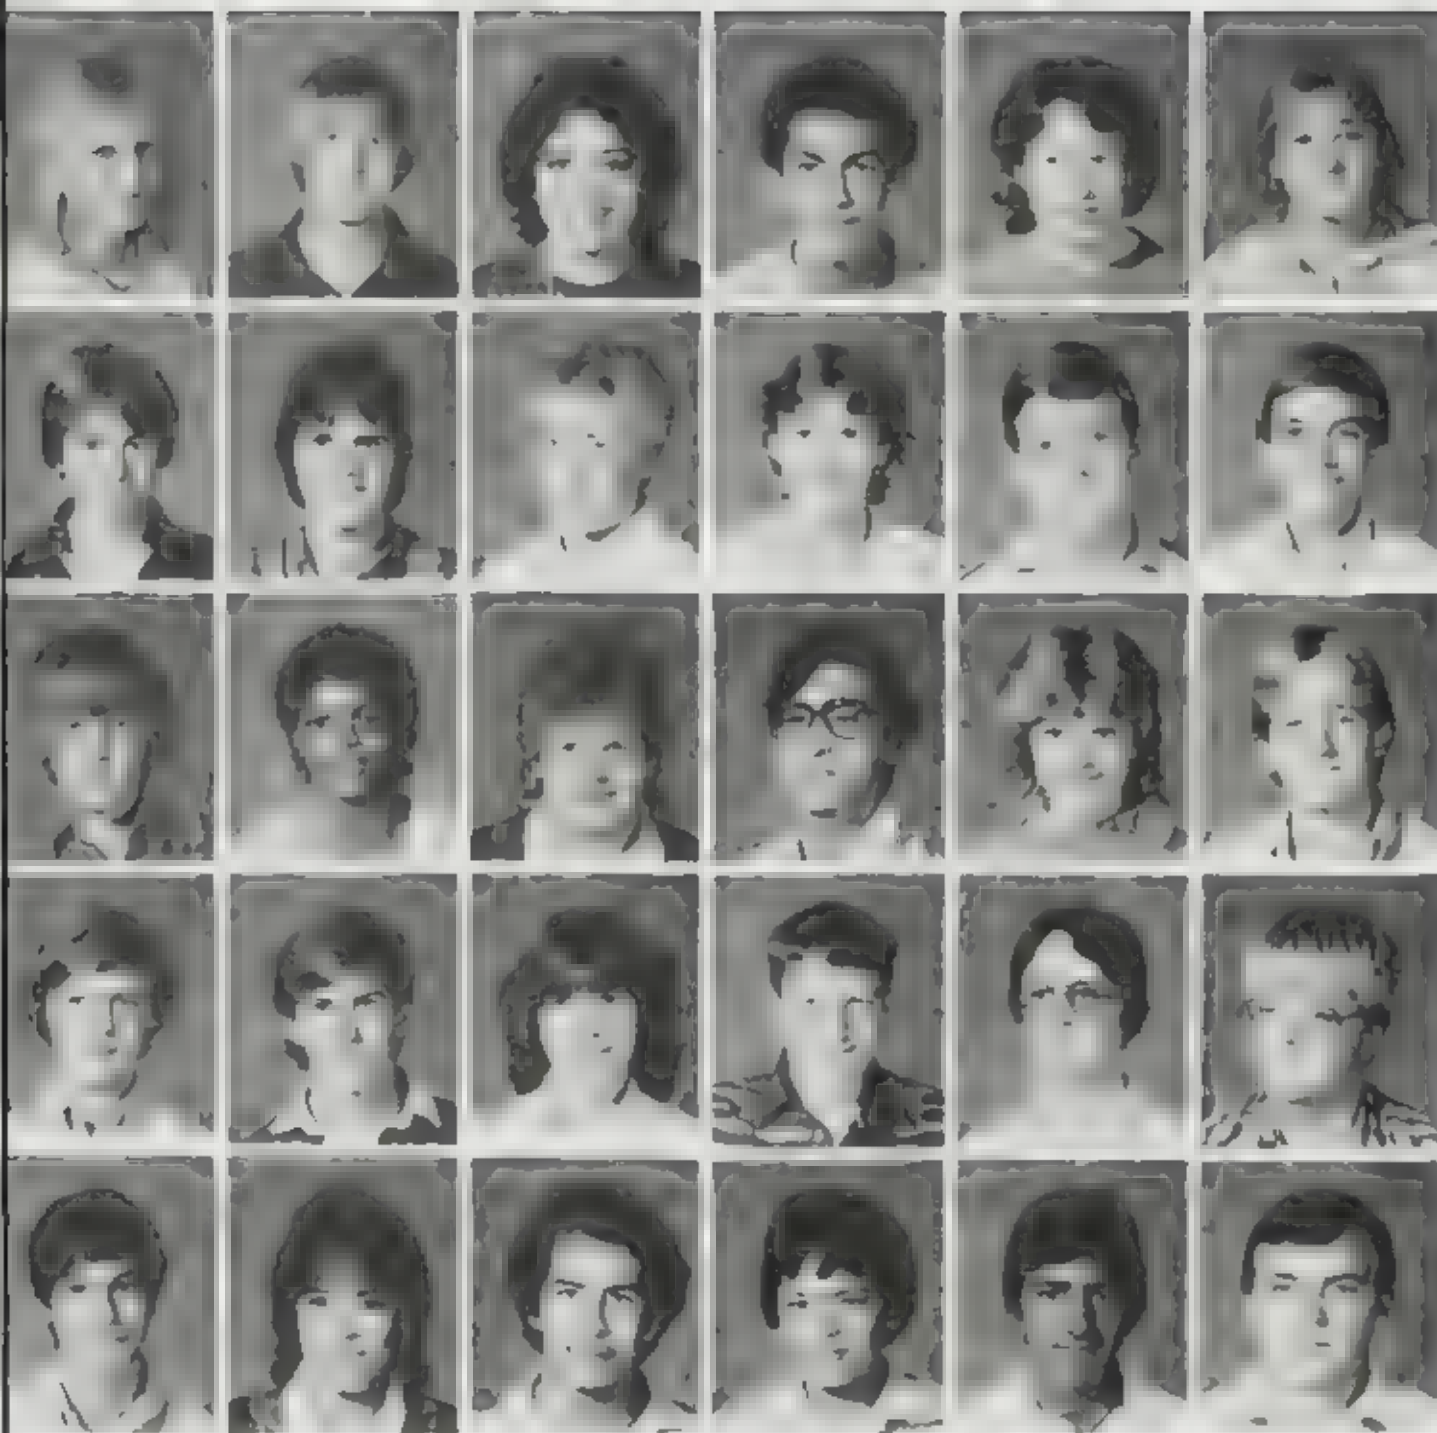

Villarreal doesn't have a set number of

hours to practice. He said, "I am always moving and trying to think up some new dances."

Villarreal said he's thought about making a career out of dancing but plans to wait and see what happens in the future. He would like to be a professional dancer and actor.

Dream drifter

Patrick dreams while riding

While most freshmen dream of the day they get their driver's license and a car Dawn Patrick just keeps dreaming about horses.

Patrick has been riding since she was four years old. Her next dream rider was the one who got her started riding. She rode almost constantly until she was seven, then quit, starting up again a year later. She rode with her mother off and on for two months. Then she started again, and started back two years ago.

Patrick has three horses: a mare named Sugar and two geldings, Fast and Thunder.

She has been in two Sundowner's Club rodeos and two Gail Wynn rodeos. Patrick is also participating in many more.

Patrick usually rides with her father and boyfriend, Craig Kimmer. He and Kimmer both hope some day to turn pro.

Christie Smith

Patrick always drifts off in my dream.

Total Chaos erupts

Without administrators' guidance

Where would students be if there weren't any administrators? What would the school day be like without announcements, rules and regulations? Total chaos probably!

Every employee in school has a specific job to do, besides many other jobs that we take for granted

School principals take time to make the announcements that are needed to be made over the speaker. They also take time to listen to students who are in trouble or in need of advice. If the whole student body didn't know what the schedule for the day was, or even have someone to talk to, they would probably be lost

The superintendents have a very important job to do. When the weather is bad they decide whether we have school or not. They also decide when the students should have their vacations and how long it should be. Also they decide when the last day of school would be

Students may get upset with these people and think some of their rules are "ridiculous," but without them Snyder High wouldn't be in the shape it's in

Tiger spirit teacher gets involved

She won a special award for her display of Tiger spirit - Tiger socks. She was a co-sponsor of the Fellowship of Christian Athletes and taught Fundamentals of Math, Geometry and Computer Math. Did you know her?

She's Mary Ann Taylor, one of the newest teachers at SHS. But she's not new to teaching - her first year at SHS was her fifth year of teaching.

She went to Stephen F. Austin University in Nacogdoches and has a bachelor of science degree in math and science.

She has taught at Hardin High School in southeast Texas and at Oaxaca Christian School in Oaxaca, Oax., Mexico.

"I like sports, music (especially playing the piano), working with kids at school and church.

"I love it here and think that the kids are great," she said.

Hopper joins faculty

Her "children" are a poodle and a Pekingese. She enjoys sewing needlepoint, cross stitch, playing the piano and reading.

Mrs. Kay Hopper joined the Borden County High faculty as a permanent English and Speech I instructor. She was let to teach, having previously taught at Borden County High School. She was U.I.L. sponsor for prose and poetry this year.

Hopper and her husband earned her bachelor's degree in English and speech from Marshall University.

She said she is a good teacher and will have many opportunities to its students. The students are some of the best in the state. We enjoyed working with them.

Moved up from SJHS to SHS, Rohan teaches shop

New to Snyder High but not to the Snyder school district was Ronald Rohan, drafting, electronics and woodworking teacher.

He has taught for two years. He has a bachelor of science degree in industrial education and technology and attended Southwest Texas State and Tarleton State universities.

He is married and his wife works at Snyder Junior High. They have two children, a son and daughter.

His hobbies and interests are computers, electronics, fishing and hunting.

He said, "As a whole, the students (at SHS) are spirited and eager to learn."

New coaches come to SHS

Tomlin, Comer begin football workouts for 84-85 season

Two teachers who joined the faculty in the middle of the year were Head Football Coach Dennis Tomlin and his assistant, Buddy Comer. Snyder from Plainview, Texas, was assistant athletic director for a dozen years of teaching experience.

He has two degrees, bachelor of science in social studies and a master of education degree.

He said one goal he wanted for his team was for the players to "have love and respect for teammates."

Tomlin was going to look for other assistant coaches for his staff who were interested in kids in fields other than just football. "We were good classroom teachers and had knowledge of the sport they will teach."

The coach is not just interested in football. He enjoys participating in FCA and is a basketball official. He also enjoys reading and bird hunting.

Coach Comer has taught for 12 years. He taught in Littlefield, Lockney and Stratford.

Comer is a bachelor of science in physical education and social studies.

Comer is a quail hunter, football, track and basketball.

Time Well Spent *being together*

As the school year rolled on, it increasingly became harder and harder to drag ourselves out of bed in the morning. Knowing that tests, crossword puzzles and films awaited us at school just wasn't a big motivator. It really wasn't as bad as we made it out to be, but the variety of clubs and organizations helped break up the monotony. They gave us freedom and time to be with our friends, which made school more bearable.

GIRLS JUST WANTA' HAVE FUN got the audience dancing in their seats when Junior Grace Kraeger stormed on to the stage in her wild and crazy costume like Cindy Lauper, at the Fall Festival.

THE FINAL TOUCH — Sophomore Student Council member, Amy White, makes the final adjustments to the decorated Christmas tree in the Student Center. Each club made their own ornament to put on the tree.

Clubs

The first of the series of fund-raising events was a dance given by the students of the high school. The dance was held at the local hall and was a great success. The students raised a large sum of money for the fund. The dance was given on a Friday night and was attended by a large number of people. The students were very happy and enjoyed the dance very much. The money raised was used for the purchase of books and supplies for the school. The students were very proud of their accomplishment and were very happy to have been able to raise so much money for the school.

The second of the series of fund-raising events was a concert given by the students of the high school. The concert was held at the local hall and was a great success. The students raised a large sum of money for the fund. The concert was given on a Saturday night and was attended by a large number of people. The students were very happy and enjoyed the concert very much. The money raised was used for the purchase of books and supplies for the school. The students were very proud of their accomplishment and were very happy to have been able to raise so much money for the school.

The third of the series of fund-raising events was a play given by the students of the high school. The play was held at the local hall and was a great success. The students raised a large sum of money for the fund. The play was given on a Sunday night and was attended by a large number of people. The students were very happy and enjoyed the play very much. The money raised was used for the purchase of books and supplies for the school. The students were very proud of their accomplishment and were very happy to have been able to raise so much money for the school.

Workshops

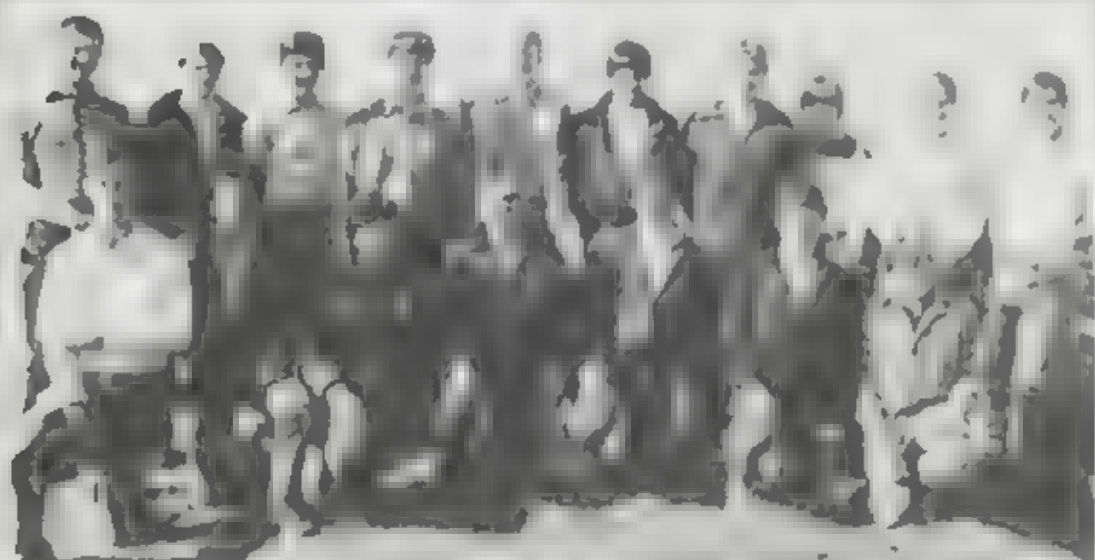

provide learning opportunities

Students at the University of North Carolina at Chapel Hill are participating in a workshop on the history of the American South. The workshop is part of a larger program that aims to provide students with a comprehensive understanding of the region's history and culture. The program includes a variety of activities, including lectures, seminars, and field trips. Students are encouraged to engage in critical thinking and analysis of historical events and documents. The workshop is led by a faculty member who is an expert in the field of American history. The program is designed to be both informative and interactive, providing students with a hands-on learning experience. The workshop is open to all students who are interested in the history of the American South. The program is a valuable resource for students who want to learn more about the region's history and culture. The workshop is a great way for students to gain a deeper understanding of the American South and its role in the nation's history. The program is a must-see for anyone who is interested in the history of the American South.

Getting the show together

Behind every successful production are dozens of people working, lots of money being spent and hours and hours being put into it.

About eight weeks of work with an average of six to seven hours per day went into getting ready for "South Pacific."

Approximately 40 hours per student over a two week period goes into preparing for an issue of The Tiger's Tale. Tiger's Lair involved the whole year.

The amount of money required for the productions varies, too. For "South Pacific" costumes, scenery and sets cost approximately \$3,000.

Each issue of the paper cost \$400-\$450 and the yearbook runs a total of about \$13,000.

How much of the work is done by the students?

Drama students do the major part of the work on all SHS productions including costumes, sets and prop building and publicity.

The Tiger's Tale and Tiger's Lair are totally dependent on the amount of work done by students.

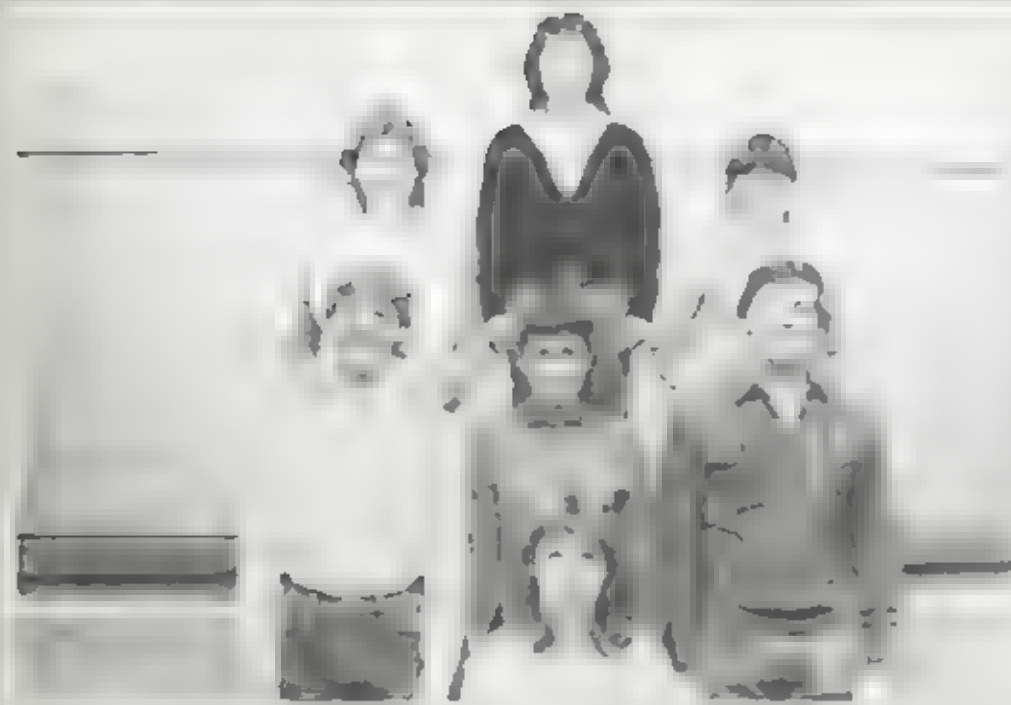

So the next time, a department gives a concert, performs a play, or the next issue of The Tiger's Tale, think about the time, money and students involved behind the scenes.

NAME: FALCONER, HANNA
 CURRENT: HONORARY MEMBER
 COUNCIL: 1975-1976
 POSITION: PRESIDENT
 TERM: 1975-1976
 NEWS: 1975-1976

Students excel in all areas

According to its definition, honor and achievement is something accomplished by skill or work with success. This was truly demonstrated by many students in different departments at SHS.

The Rockefeller Award wasn't the only outstanding award SHS received, especially by the drama department. The one act play "The Crucible" won state for the ninth time, making it the winningest drama department in Texas.

Drama and speech had individual winners in UIL too. Dana Parham placed third at state in poetry interpretation and Kathy Norris was alternate to state competition. Drama also had actors/actresses named as best and those who were named to the all star casts at the different levels of competition.

Choir had two state winners. Parham and Jeana Fox made it to the top. Choir students also competed at district, area, regional and in UIL solo and ensemble

competition. Plus they competed at concert and sight reading.

Band didn't let us down, either. They competed at district, regional and state. And represented SHS in solo and ensemble contest.

Journalism students were cited for overall excellence in both newspaper and yearbook judging at the UIL Press conference in Austin.

The SHS Chapter of FFA didn't do bad either. The Range and Pasture Judging Team placed fifth at the National Range and Pasture Judging contest in Oklahoma City. They also captured third at the WTSU judging contest in Canyon. The Crops Judging Team took first place in their event in the same contest. The Livestock Judging Team placed fourth.

DECA members placed high in regional competition in San Antonio. Teresa Tate won a first place and Gilbert Pesina qualified as alternate for state. Tate went on to compete at state.

VICA's Carmen Juarez placed third at state in the orderly classing after competing at area.

Snyder Industrial Arts students were winners, too. Twenty four projects and nine individuals qualified for state.

Time Well Spent in classes

Canterbury students are all the same when it comes to academics at SHS. Some of the things we learned in our classes were that we were here to learn.

This is a hard thing to say, but it is true. We were here to learn about our own lives. Although we tried to make a difference in the world, we were here, it was apparent that we were here to learn. Even if we didn't realize it yet.

Newton tries to make a difference in the world, but he is not the only one. There are many other students who are trying to make a difference in the world. They are all here to learn.

Classes form corporations

For years, teachers have been searching for different approaches to present their various subjects, claiming that students tend to grow tired of conventional teaching methods. Metal Works teacher, Mike Kozelsky and Woods teacher Steve Beck, seem to have done just that.

In a turn around from the usual individual projects, Kozelsky's first, third and fifth period Metals classes decided to form corporations, complete with officers and official names.

The Woods classes also founded two corporations complete with officers and names.

The first period Metals class decided to name their company Snyder High School Metals Corporation. Officers were Troy Menix, president; Barry Byrd, vice-president, and Stacey Browning, secretary-treasurer.

Heavy Metal Corporation is the name chosen by the third period Metals class. Brad Rodgers was president, Kenneth Jones, vice-president and Wayne Goswick, secretary-treasurer.

Fifth period voted for the name Snyder Metalworks along with President Johnny Realsola, Vice-President Danny Ynguanzo and Secretary-Treasurer James Powell.

"My duties are to preside at all the meetings of share holders, be an advisory member of all committees and supervise all operations of the corporation," Rodgers said. "I would like to be head of a corporation one day, but I also realize what a hard task it would be," he added.

Jones said, "I like my position because I'm learning about leadership. My job is to assist the president." He plans to be part of a video game company as either a designer or a programmer.

The job of secretary-treasurer is the busiest. Their duties are to take notes at meetings, keep records on who has bought shares and keep every

member informed of the amount of money in the corporation.

Besides naming their officers and company names, students have to produce and sell. They have produced wall racks, wrought scroll wall shelves and letter holders and wrought metal butterflies.

SHS Enterprises and West Tex Woodworkers are the two corporations formed by the Woods classes. President of SHS Enterprises was Stacey Browning, Vice-President Kyle Lane and Brian Sitton, secretary-treasurer. Officers of the other corporation were Ricky Romero, president, Fred Fleming, vice-president and Keith Whatley, secretary.

"It is an experiment this year. We will just have to see how it turns out," Beck said.

These two corporations produced sewing trays and folding chairs.

Sitton said that the sewing tray production took a lot of time, but was well worth it.

"Whatever you do when you get out of high school, you have to work with other people and this helped me learn to work with others."

"It gives the students an idea of how industry really works. Mass production is how most everything is made. The corporations make up three-fourths of the types of business today," Beck said.

Student organization, individual participation and how the product was marketed were also factors in determining grades.

"All things considered I would say the students are enjoying this. It shows them how businesses are started, the organization involved and how assembly lines are set up, not to mention the financial risks the investors face whenever investing in an enterprise," Kozelsky said.

3 choices . . .

Involving the students

Ah! Come on! Do we have to? This is *so* boring!" "If you don't want to do the work, you have three choices: You can quit, take a three-day vacation or receive a zero."

There are ways the teachers at Snyder High get the students involved, but then there are times nothing will get them involved. For example, some teachers say if a student doesn't participate in class, he will take a trip to the office. In other words, they use threats.

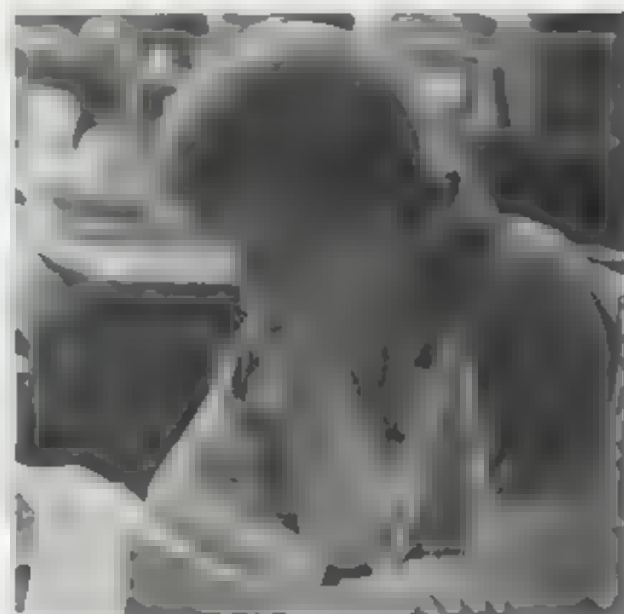

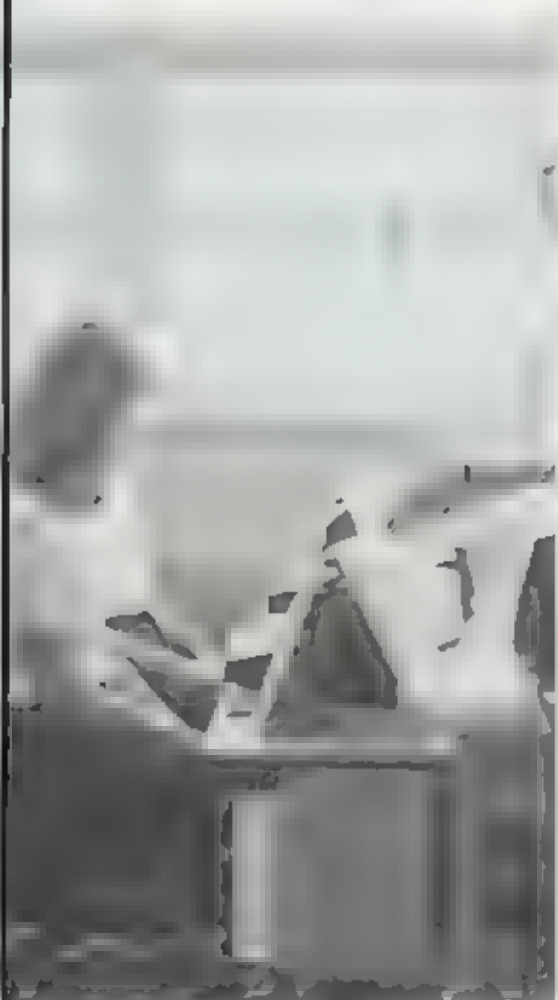

Most teachers just ask for the answers to oral exercises. The only student usually gets called on to answer is the one he doesn't know. Other teachers use prizes.

AMERICAN One teacher has tried to show an interest in students so they will want to get involved.

Walter Hargrove said he tries to help students communicate and understand but it is difficult for most students.

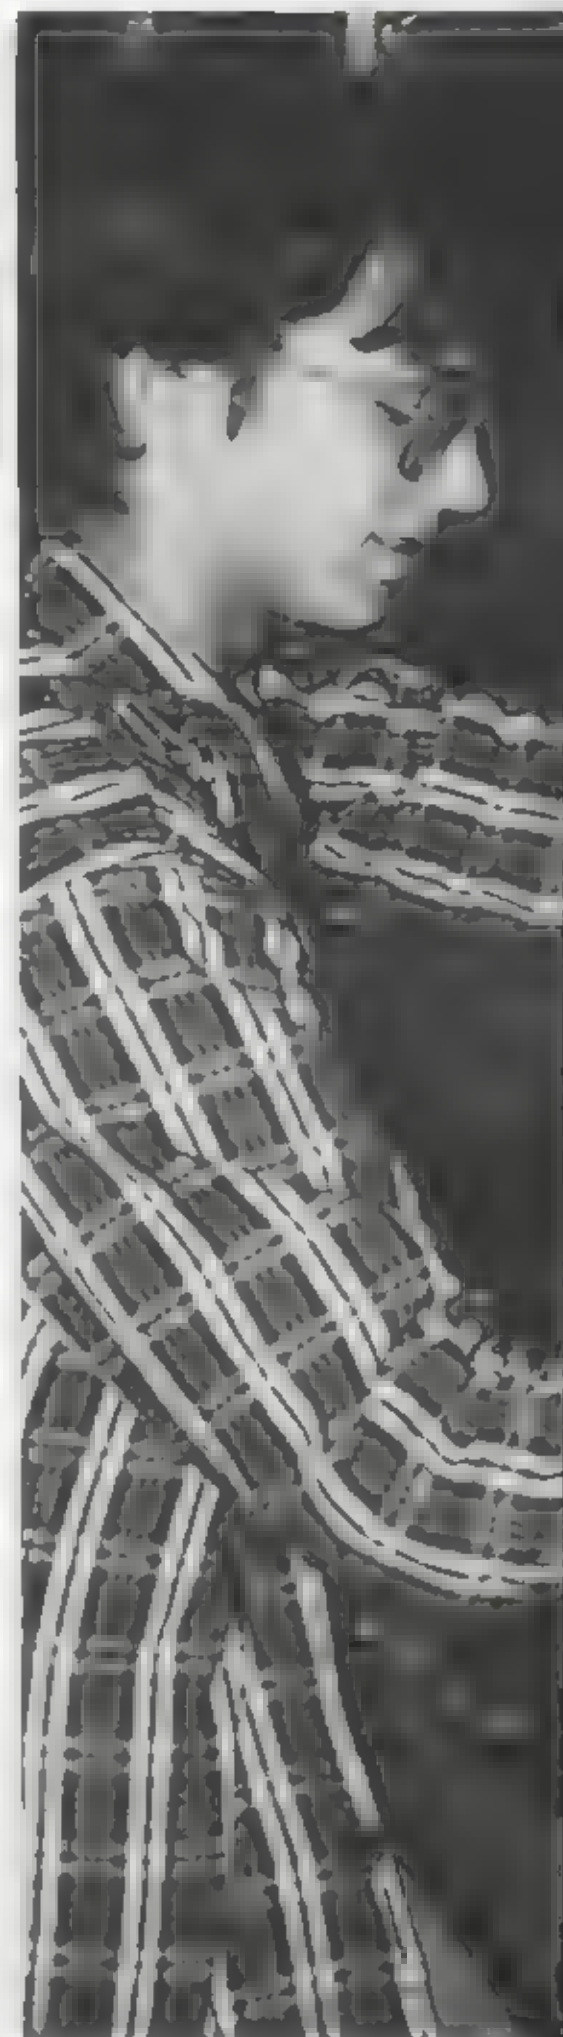

Some people don't want to get involved and won't, but the majority of SDS students do.

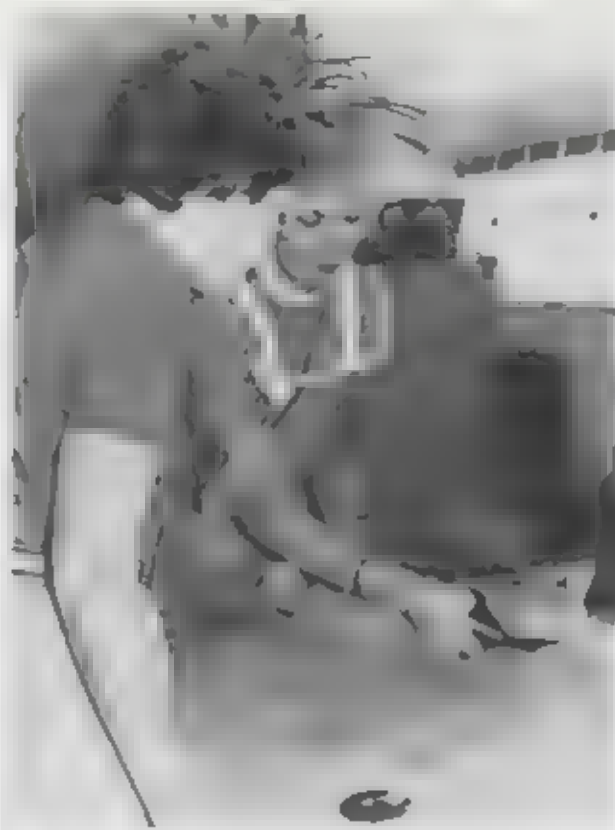

— Suzette Harris

A. N. S. P. Training A. with ...

On-the-job-training found in not normally thought of classes

Although we don't really think about it, many of the jobs we take in high school are the result of on-the-job-training. Some of these jobs are business, power, and other types of jobs that require technical and vocational education. Others that aren't thought of as such are art, French, photography, and journalism.

Business and vocational education is a very important part of the curriculum. It includes work with computers, machines and office equipment. Mrs. Mary Killam, business teacher, said:

Both newspaper and vocational education involves students learning how to ask questions, write stories from that information given, write headlines, cutlines, choose pictures (sometimes even taking their own pictures), and putting a page layout," said Mrs. Diane Arnold, journalism instructor.

The majority of drama training is designed to help people in every career choice. This involves developing perception, awareness, and imagination. It also involves the use of the body to express ideas. Mrs. Mary Killam said that drama training is a very important part of the curriculum. It helps students to develop their own ideas and to express them in a creative way. Mrs. Mary Killam said that drama training is a very important part of the curriculum. It helps students to develop their own ideas and to express them in a creative way.

Availability of jobs? Yes, there are many jobs available in every career choice. Mrs. Mary Killam said that drama training is a very important part of the curriculum. It helps students to develop their own ideas and to express them in a creative way. Mrs. Mary Killam said that drama training is a very important part of the curriculum. It helps students to develop their own ideas and to express them in a creative way.

"There are numerous jobs available in various music fields. However, the competition for some music fields is very, very tight. Music business and performance jobs are really tough to get," said Clifford Franklin, assistant band director.

Even foreign languages have many opportunities, but how many of them will go into that as a career? French teacher Mr. McAnally said, "All of my English students can use good speaking and writing ability in their jobs, but probably no more than 1/5 will directly enter English teaching, mass media, journalism or other such jobs. The French students are most likely going to use French in the preparation for their careers (i.e., during their college career) rather than in their actual careers."

There will be as many as 50% of the students go into agriculture or agriculture-related field sometime after completing their education," said Billy Bol McMullan, agriculture teacher.

"Students enrolled in this course may want to find employment in any one of the following service stations: 24,000 new car dealers, 90,000 independent garages or repair shops, the thousands of parts houses, fleet garages, specialty shops, or accessory department of some stores. Every student in this course will, more than likely, have his own car and needs to know how to maintain it, and do minor repair on it," said Wayne Griffin, automotive teacher.

On the-job training? Yes, in places you don't normally think of.

— Lizzie Rios

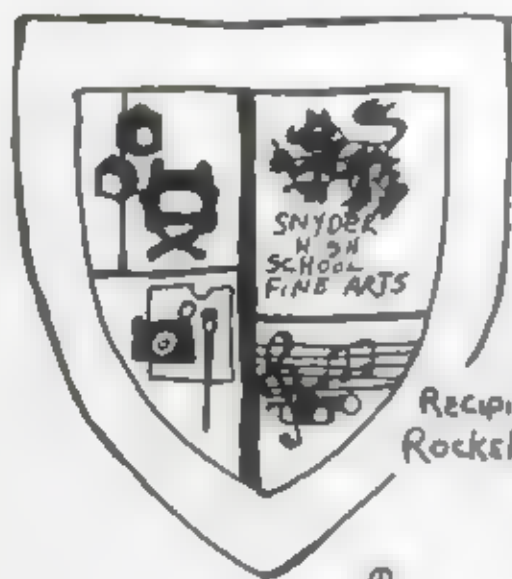

The arts thought fine

David Rockefeller, the Rockefeller Foundation's president, presented the 1984 Arts in Education Award to Snyder High School in New York City at a ceremony in New York City on May 11. He was joined by the department's vice president, a presentation by the band and an orchestra assembly. Snyder High School was the special guest at the ceremony. Two of the school's state winners, a band and a choir, were present to receive their trophies and the visiting team.

Snyder High School is a school where the arts are a part of the curriculum. It is a school that admits both public and private elementary, middle and high schools. It is a school that is open to the community.

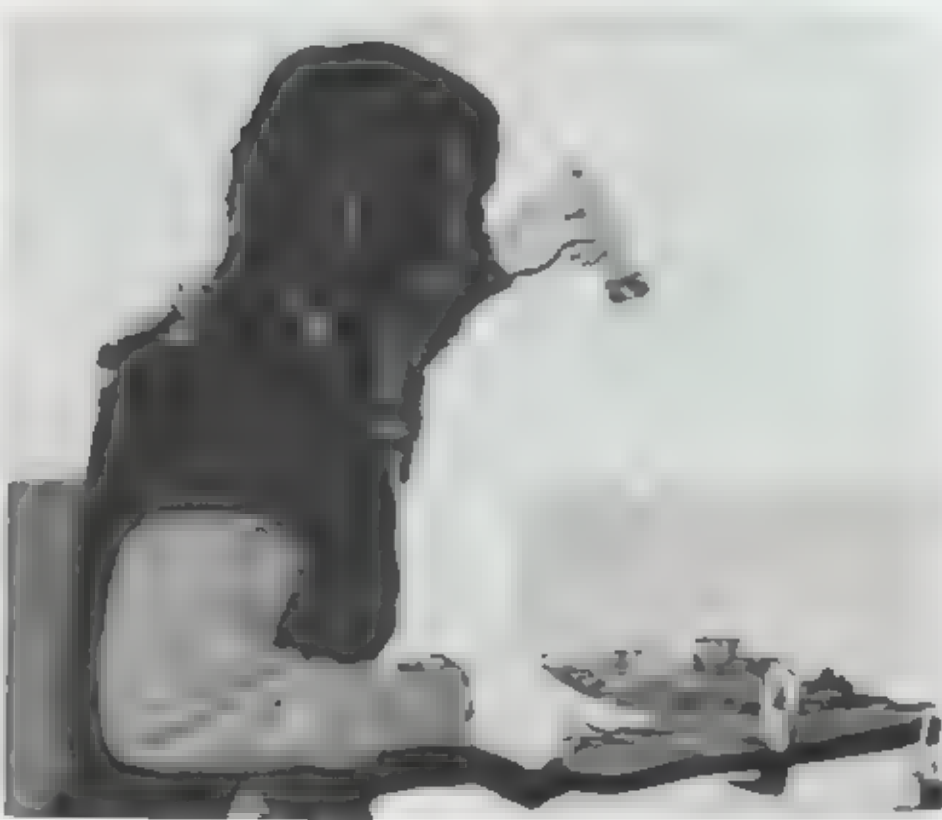

The very requirements of the award had to be used to further the arts in education.

Snyder High School was named as an award winner in February after Jerry Weissman and Kay Snyder had sent in the necessary application. Knowing the many requirements of the award, the department.

RECIPIENT
Rockefeller Arts in Education Award, 1984

Civilization's first culture taught in Snyder's Agriculture program

"I was our first culture and I believe it will be our last," said Mr. McMan. This is what Roy Bob McMan said about the subject he teaches, Agriculture.

One of the more advanced and programs there were approximately 10 students enrolled in the Ag department. Ag involves the study of plants and animals. Mr. McMan said it is the study of livestock and pesticides, plants and animal diseases.

As Jeff Barrett junior point, "Vocational Agriculture is a learning experience related to farming and ranching."

The Ag department won at least 14 awards and qualified for both state and national competition. The awards included Senior, Junior, and Freshman teams. The Junior team took first place at district. The Junior team took first and second places and the senior team took first. The Ranger and Pasture teams took fourth place at

Barrett, fourth place at Abilene Christian University and fourth place at Sweetwater. The Junior team took sixth place at Abilene. Sixth place and eighth place was won by the livestock team at Tarleton and San Angelo respectively. The Senior team took eighth at Sweetwater.

McMan has been teaching Ag for 15 years. His sponsor teacher Randy Graham has been teaching for seven years.

The students get involved in everything as a whole group, McMan said.

In April, the Grass Land team placed third out of 40 teams in Range and Pasture Contest. The top five teams went on to compete in national in Oklahoma City May 1-3. Adam Brewster placed third high individual and Jay Garrett was seventh high. The other member of the team was Pat Ken.

Christy Cothran

Let's educate our bods

"A day long our teachers ap-
 peared themselves to teaching
 as what they had already
 learned. We had spent a long time
 talking about a break? Gee, what were we going to do with
 a break? Talking for an hour gets kinda
 boring and standing around's not fun either
 I know let's educate our bods."

Every student had to take the credit
 credit in physical education. The PE
 was a time to get away from the
 classroom and into the gymnasium.
 I was a time to get away from the
 classroom and into the gymnasium.

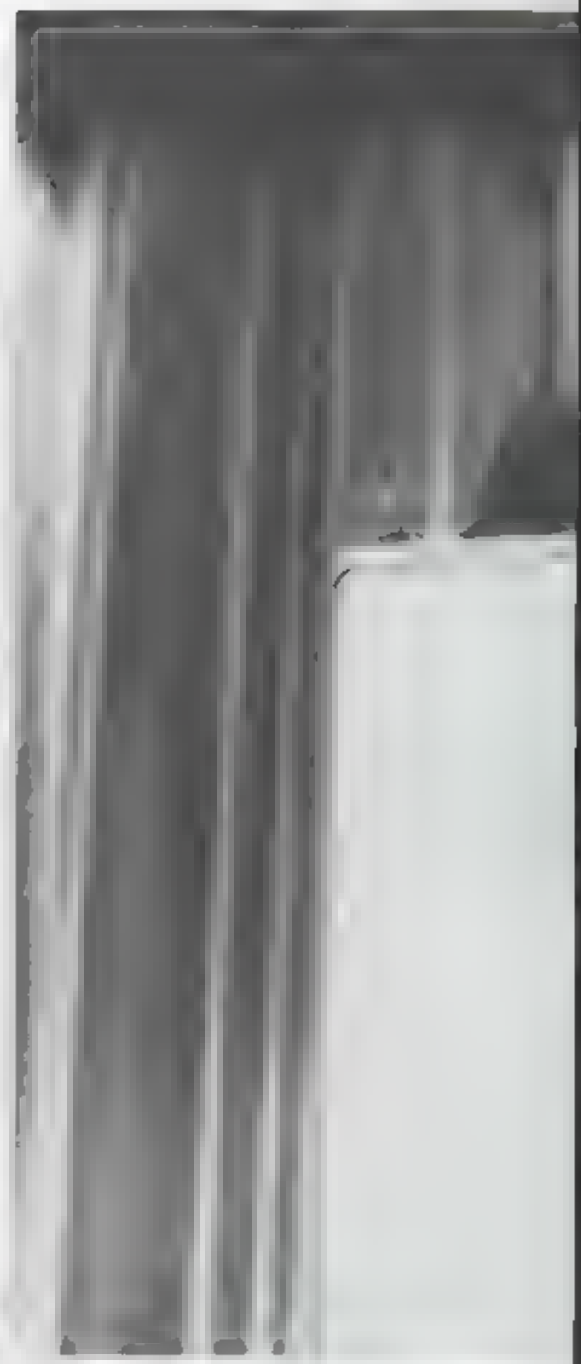

I was with the PE teachers that stuck in
 my mind. It was like Ken Housden's
 second period class. Every time I walked in
 the gymnasium, I would be playing basketball
 because they always seemed
 to make sure I saw their greatest shots.

Another time was Coach George C. Fry's
 second period class. I never understood the
 reason, but they always seemed to have
 some kind of interference in the gym.

And then there was Coach Fry's fifth period
 class. They were a little bit different. They
 always seemed to have fun though.

That was the whole point. Physical educa-
 tion was to get our bods, to get to know
 themselves, but most of all, we needed
 to just let our selves go.

— Tricia Gregory

Give students a break

Assemblies, movies, films, videos, extra credit

"May I have your attention, please?" asked Ray Courtney, principal, every morning at the start of school.

"We will be on Alternate I bell schedule today."

"Alright! Long lunch!" SHS students exclaimed.

"There will be an assembly, and you will report to your advisories," Courtney continued.

"Ugh! Give us a break!" SHS students moaned.

But, if you'll really look at the year, you still got out of class. In other words, Courtney did give us a break pretty often. We got to see some great programs.

For instance, Harley Bynum's Tiger slide shows, Chris Wiman's and Amy Lan-

caster's foreign exchange trips, parts of plays performed by the drama department and others.

But what about other kinds of breaks? Films and movies in the library or video room. We just loved seeing a film — anything — but take a test! And the teachers were giving us a break.

Another example of a break given by a teacher: Mrs. Peggy English's world history classes had to do a food project for extra credit. Students had to do research, give an oral report and prepare and bring food.

So, every day we probably got some sort of break. Maybe we didn't like the results, but "Hey, give us a break!" — they did!

— Suzette Harris

Ah-Eeek-Oh!

Pranksters pull jokes

Hey, what? Now we've got some funny things coming out of the hall almost every day. We pass on the fun that happened in our last class.

Alana Dave and Rick candy in class. Without about it he walked around all day.

I was with a great sense of humor. I think up a joke.

Junior Jet! any day in Mr. Lash class. One day out of the classroom chance. The guys and planning turned our desks around and it so it looked like Lax and Alka.

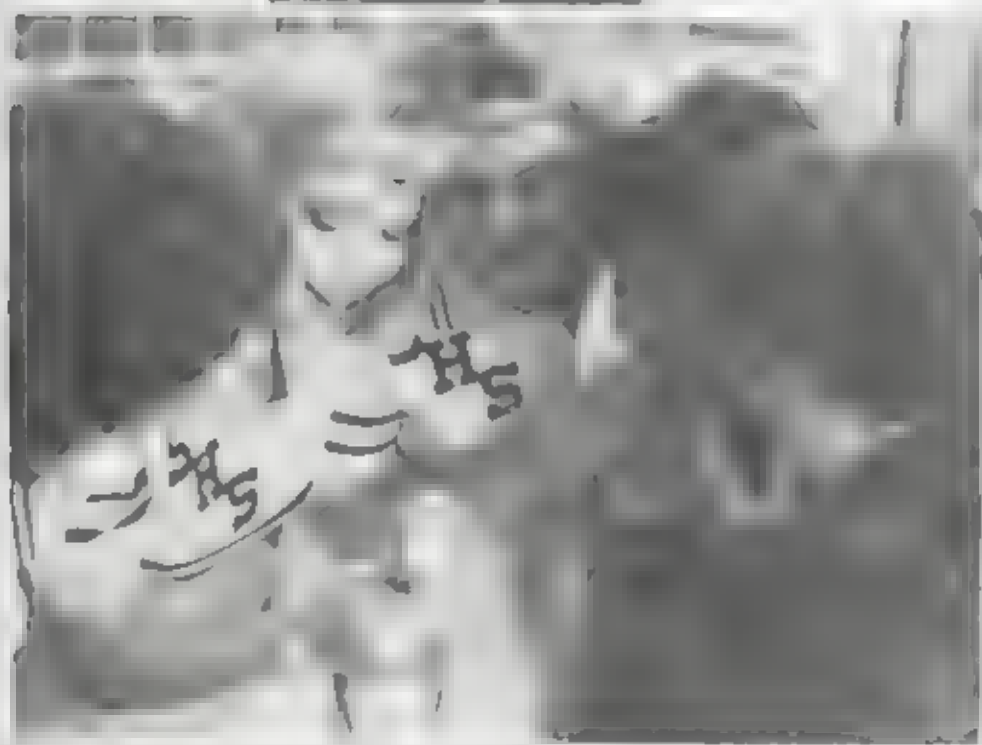

I'm sure it will be a joke or the best of the best.

Tricia Gregor

The first of the four men is wearing a light-colored, short-sleeved shirt and is looking towards the camera. The other three men are standing slightly behind him, also looking towards the camera.

HI HO, HI HO, IT'S OFF TO THE GAME WE GO. Friday mornings were always the time for those "eye-awakening" announcements from Varsity Cheerleaders Tracey Lewis, Kathy Norris, Sharmon Briggs, Rachel Romero, and Larne Donelson. Every week it was something new and definitely different, everything from nursery songs to the Brady Bunch theme song! (Photo by Lawrence McCown)

Time Well Spent as a team

Sweat, determination, and a will to win, guided the Tigers through a tough season. The competition was stiff, but they sunk their teeth into what they wanted and went after it; shooting free-throws until their arms ached, running lap after lap when they didn't think they could, and sweating until they were drenched.

Doing the best they could was what playing sports was all about, and the school, as well as the athletes, pulled together and kept fighting. So it didn't really matter who won or lost. What did matter was the fact that this was the year the Tigers became a team!

SWEATIN' IT OUT! Never losing sight of the game, Senior Peyton Claxton, #31 receiver, takes a short break as he watches the Tigers take on the Sweetwater Mustangs in their first district home game (Photo by Lawrence McCown)

'83 Tigers end winless season, after playing their hearts out

Nov. 1, 1983 brought to a close the '83 season for the Tiger football team. This was also the last time 15 SHS seniors would ever wear the black and gold football uniforms that represent Snyder.

The season didn't go as well as planned, but even though the Tigers were winless they played their hearts out. Seniors who led the team were Art Minor, Richard Wesley, Peyton Claxton, Darren Greenway, Tommy Hunter, Norman Malone, Eddie McClure, DeWayne Williamson, David Gandy, Chris Jones, Chad Peterson, Mike Everett, Jeff Seneros, Ricky Vaughn and Joe Boudreau.

Leading rusher for the year was Malone. Leading the passing attack were Jimmy Can and Charles Bollinger. Peterson played the spot in a couple

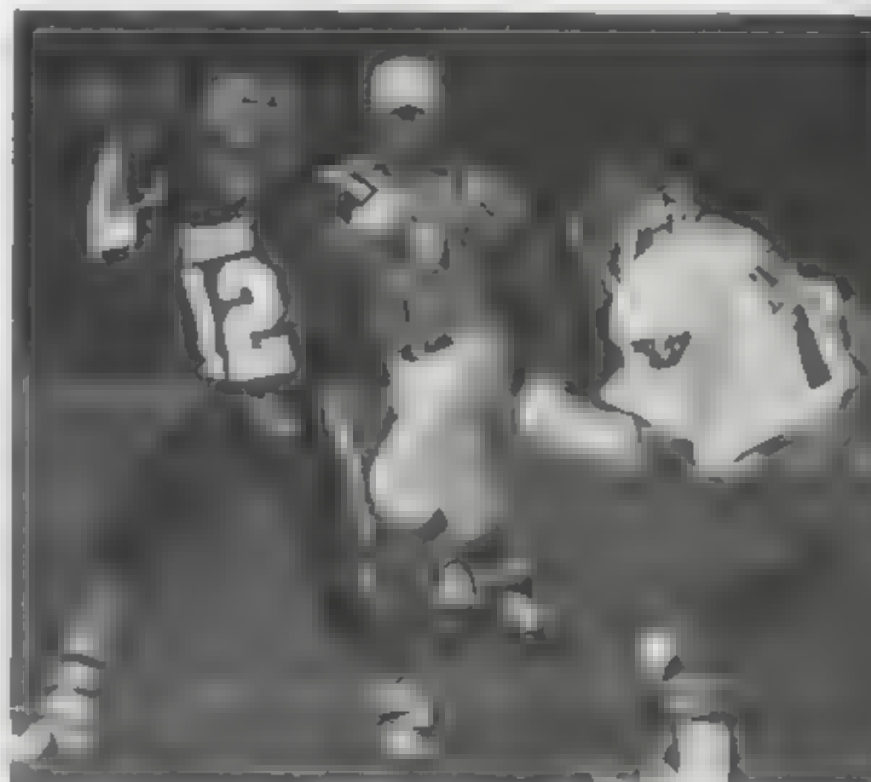

of games.

The Tigers opened against Bay Springs and were defeated 20-0. Next they traveled to a tough Fort Barren and lost them a 1-0 victory. Can Andrews first victory came by way of a 21-8 bombing and then Sweetwater topped the Cats 20-0. The next game came at the hands of a tough Monahan team. But then they tried for a victory with Peens but lost 27-0. Fort Stockton beat the Cats 47-7 then they were slaughtered 34-0 by Andrews. They started to come back against Lake View but were torped with a final of 14-14.

Peterson was named to the 24A district football team. Named honorable mention were Williamson, Vaughn, Malone, Minor, Greenway and McClure.

IV's record 5-5, Frosh A 5-2-1, B 1-4

Teams end season with various improvements

Snyder junior varsity ended its season on a strong note, defeating San Angelo Lake View 22-18. The victory left Snyder 5-5 on the season.

"I was pleased with our overall season. We had some disappointments. There were two or three games where we didn't play well. But the kids learned a lot and improved. We had more players this year

than we've had in a while, and I think we established a good winning foundation," Coach Robert Crawford said.

Snyder freshmen lost their final games of the season to Sweetwater.

The B team lost 8-6. Snyder's score came on a Mike Kershaw quarterback sneak from one yard out.

The A team lost 38-36. "In this game, we played as well as

we could offensively and probably as poorly as we have played all year defensively," Coach Rick Howell said.

"The team did show some improvements during the year. The most noticeable improvement that I saw was that the maturity and work habits of our players improved. Also, it was great to see certain guys become 'players,' as they learned what the game was

about - hitting. We are proud of our freshmen and believe the future is bright because of their character, determination and talent. I think they'll stick together and will be 30 or more playing winning as seniors," Howell said.

Coach Bud Birks also worked with Howell with the freshmen teams.

Work it one at a time

Winning season upset;
team stays together

"One at a time, come on, just one!" If anyone ever went to a varsity volleyball game, he would hear these words and see the Tiger "tough" players hold up one finger. These words and this sign did not just mean that they were number one, but it also meant to take one team, one game, one point at a time.

The Tigers came out with a slow start, but they showed everybody who was tough when district came around. Being mentally in the game was the hardest thing to do. Sophomore Donna Anderson said, "If I had to do it all over again, the first thing I would do is to realize that we all have to be mentally into the game and concentrate every second we are out there."

The season was filled with total excitement. Anderson went on to say that the best game they ever played was against Pecos at Pecos. She said that after the game they all felt good about the rest of

the season.

Everybody knows that that great feeling of winning doesn't always stay. Senior Can Walker said, "The thing I'll remember most is our last team huddle. It was after we lost the play off game to Pecos. Coach Leslie O'Pry said, 'One last time', and it hit me that was the last time I'd ever play high school volleyball. It was a sad feeling."

The season didn't turn out as expected but one thing that did is that even though district didn't go their way, they were still winners.

The diagram shows a 2D hexagonal lattice of atoms, represented by solid circles. A central atom is highlighted with a larger, shaded circle. A dashed line connects this central atom to one of its nearest neighbors. The lattice is labeled with 'a' for the lattice constant and 'r' for the distance between adjacent atoms.

Frosh combine with JV

Teams lack experience, but gain it in the end

The JV and freshman teams didn't excel as far as past JV teams have. The JV team was composed of one junior and four sophomores. Having only five players, Coach Leslie O'Pry was forced to pick from 26 freshmen to fill up the JV team. She chose five from these 26 who were fit for the positions.

Freshman Pam Casias was one of the five chosen. She said, "I didn't think I could make the JV. I was very excited to play with them. I was nervous at first, but after a while I was more comfortable and I tried to play at my very best."

Sophomore Kima McLarty said, "I didn't mind playing with the freshmen. I considered us all one team no matter of their grade. We all worked together. Kima also stated that she gained playing experience that she can use for the future."

IN ACTION #11 Pam Casias spikes the ball. #3 Ward sets for the spike. #1 McLarty gets ready for defense. Photo by Tricia Gregory.

The freshman team, on the other hand, had a lot of potential, but not all teams with potential go far. Jayme Gregory said, "One of the reasons that we didn't go as far as we could have, is because when we would make mistakes we would let it get us down."

Winning wasn't the only thing that didn't seem to go as planned. Carrie Fortune recalls an embarrassing moment in the Snyder Tournament: "A girl spiked the ball to me. It was high enough that it would have been out. Instead of letting it go out, I jumped up and caught the ball."

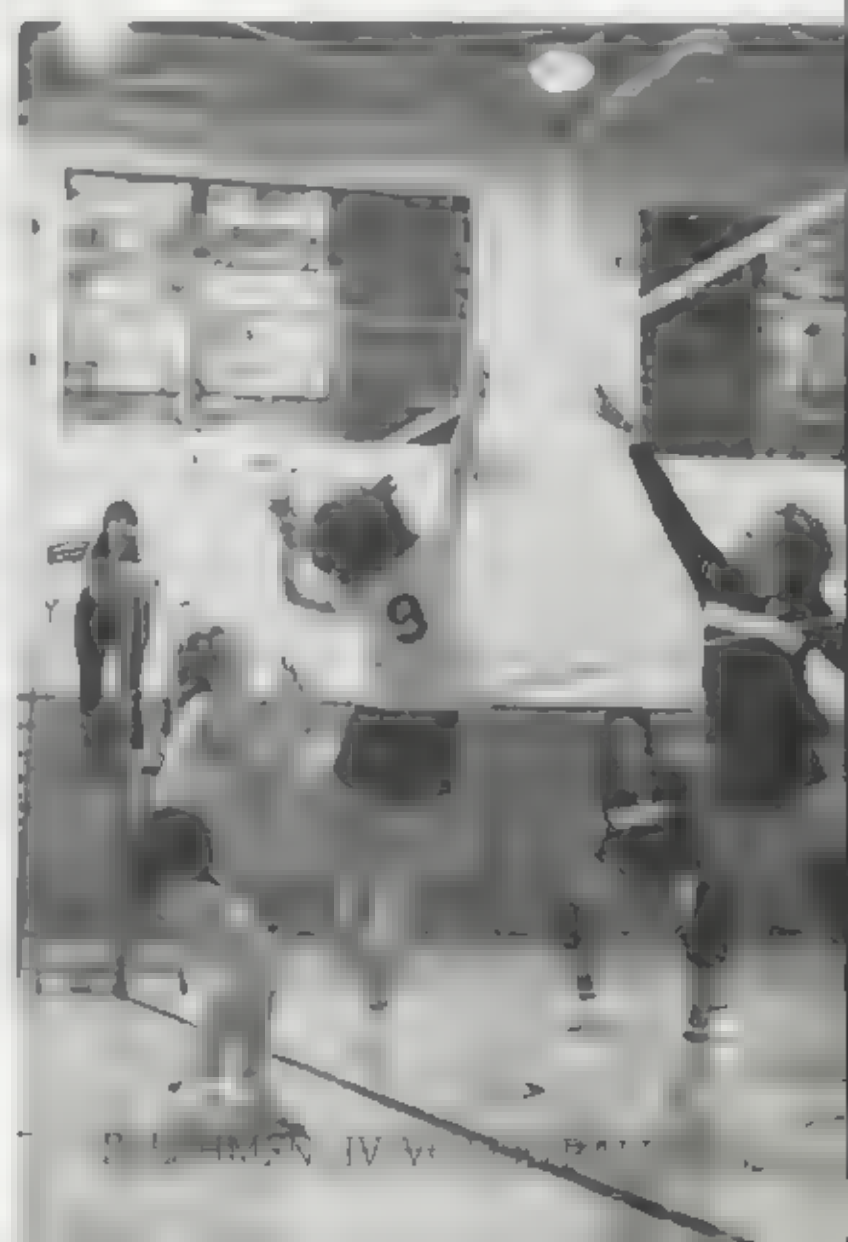

The had a lot of team spirit but lack of experience was the only thing keeping the junior Tigers from a successful season.

Involvement is important in basketball

"Getting involved is what I'm doing," said Heather. "Basketball is important to me. This season it seemed a little like we were team got involved and the record showed that in their 11-14 season."

The high scoring player was Kaitlyn Thompson with a game average of 14 points. Her high game was against Andrews with 28 points. She was named All-District Honorable Mention.

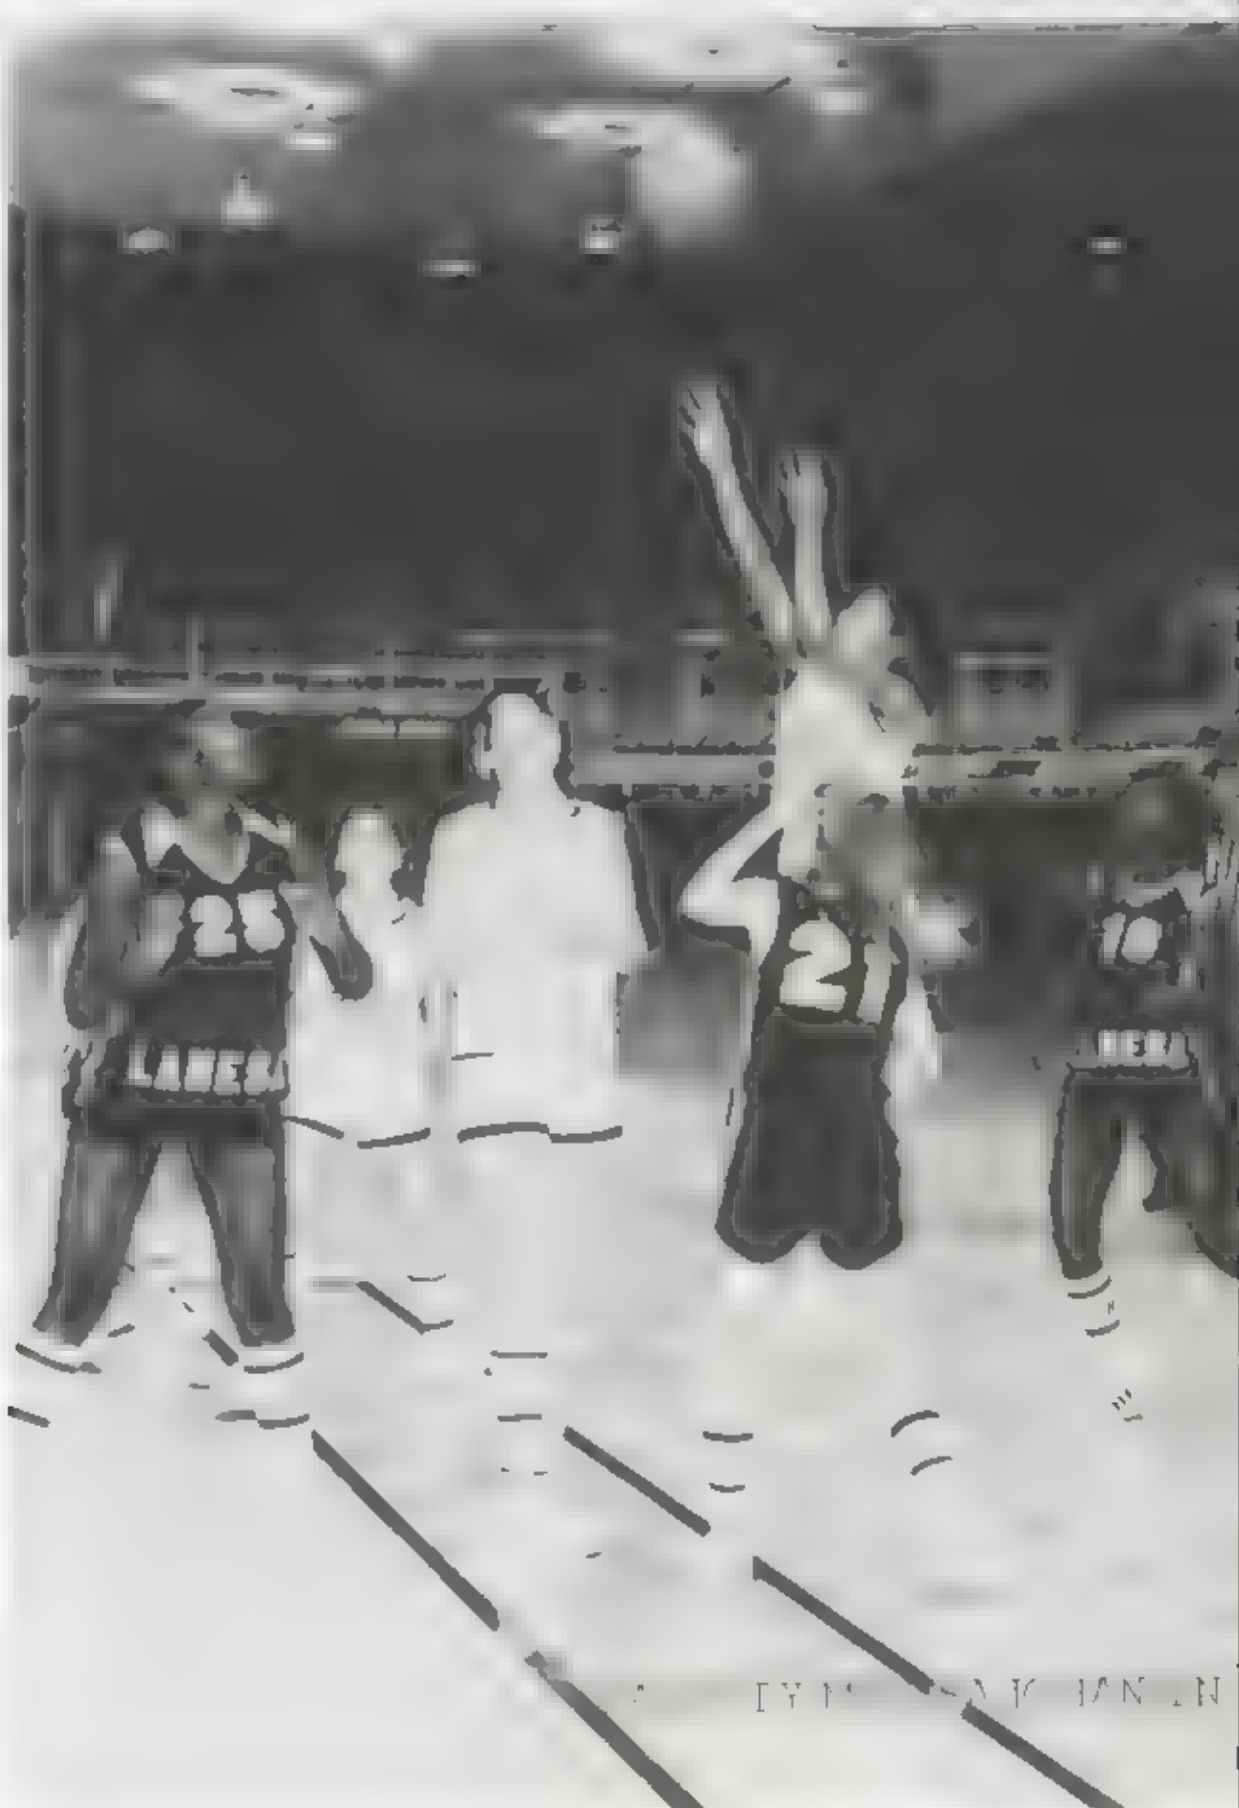

Running close behind was Heather with a 17-point game average. Her high game was against Sweetwater with 22 points. She was named All-District.

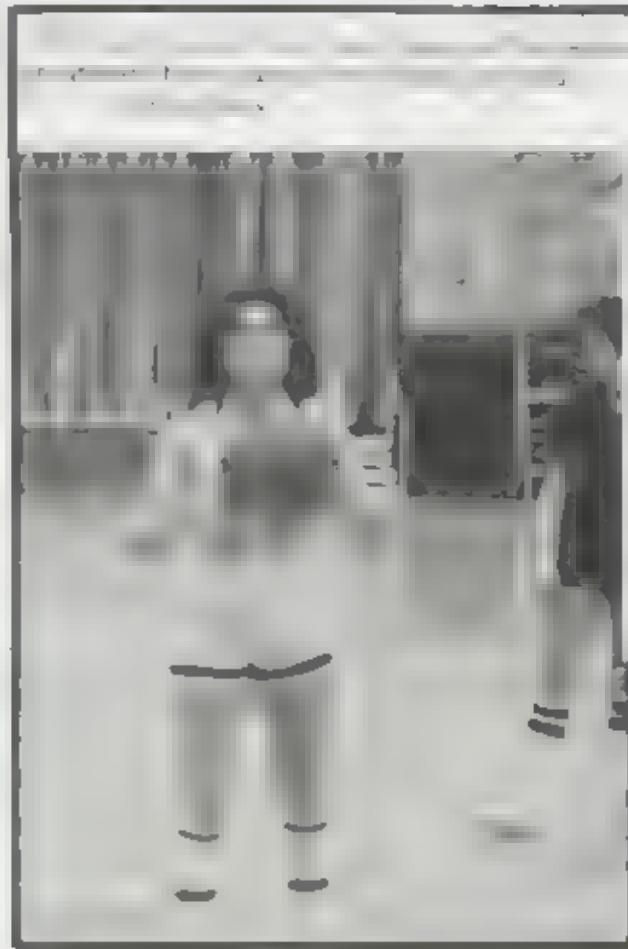

Carmen Rios was also named the honorable mention. Kaitlyn said that she liked basketball because she could set goals and work to achieve them.

Eight lettermen will be returning in the 84-85 season so we are looking forward to their experienced team play.

JV, freshman teams finish 8-11, 5-10

The Snyder Junior Varsity team ended their season with an 8-11 season record (4-9 district).

Leading scorer for the team was Stephanie McKnight with 210 points hooped in 14 games (15 points averaged per game). Her high game was against Andrews with 30 points. Second high scorer was Pam Casas with 51 points basketed in four games (13 point average).

Why basketball of all sports to play? Angie Housden said, "I like basketball because I think it's fun. It takes every player to make a team work out."

Hope Hernandez said, "I like playing basketball and any kind of sport that helps the school."

It's fun and it gives me something to do," said Cintia Gonzales.

Although the season didn't end as well as it started, Housden,

Hernandez and Gonzales were satisfied with it. Housden said she thought it was "pretty good except for a few games that we should have won."

The freshmen ended their season with a 5-10 record.

High scorer was Leslie Ward with 49 points. Second high was Donna Clay with 49.

The freshmen, for the first time, experienced the joys of winning and the sorrows of losing. But how did they feel when they lost and played their best?

Monica Hinojos said, "I'm usually upset and I won't talk to anyone 'til I cool down and when I do I realize I played my best."

Shondra Robinson said, "You have a good feeling inside even though you did your best, but your best wasn't good enough."

District 8-6

Cagers finish season
with player
improvement

"We didn't accomplish what we wanted to do that was disappointing. We gave a good effort each game, had fun and represented Snyder High well at all times. Three things we had set out from the beginning to do each game," said Head Coach Scott about how he thought his basketball team did.

Scott said, "Each player improved individually and we played better as a team. The team finished the season with an 8-6 district record (2 season).

Senior Sunny Cobb said, "I think I improved a lot and I think that I have a lot more to learn.

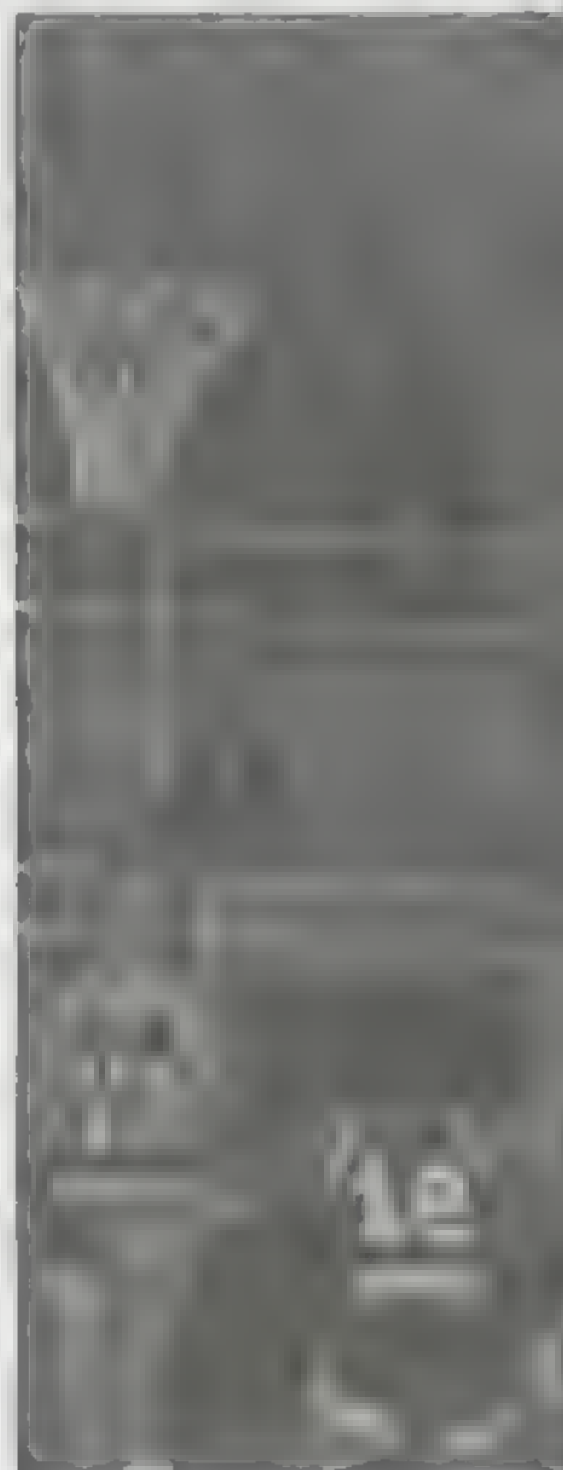

There are times we all wish we could go back and make some changes. Senior John Murphy said he had the chance to make changes. "There would be a lot of changes made. I would work to improve and make myself a better player."

Junior Willie Greathouse said, "I would improve my attitude and be out to get every rebound I saw coming off the rim."

Sunny Cobb was high point man with a 10.2 average. Murphy averaged 6.6 rebounds. Paul Tate averaged 1.9 and Chad Peterson averaged 1.1.

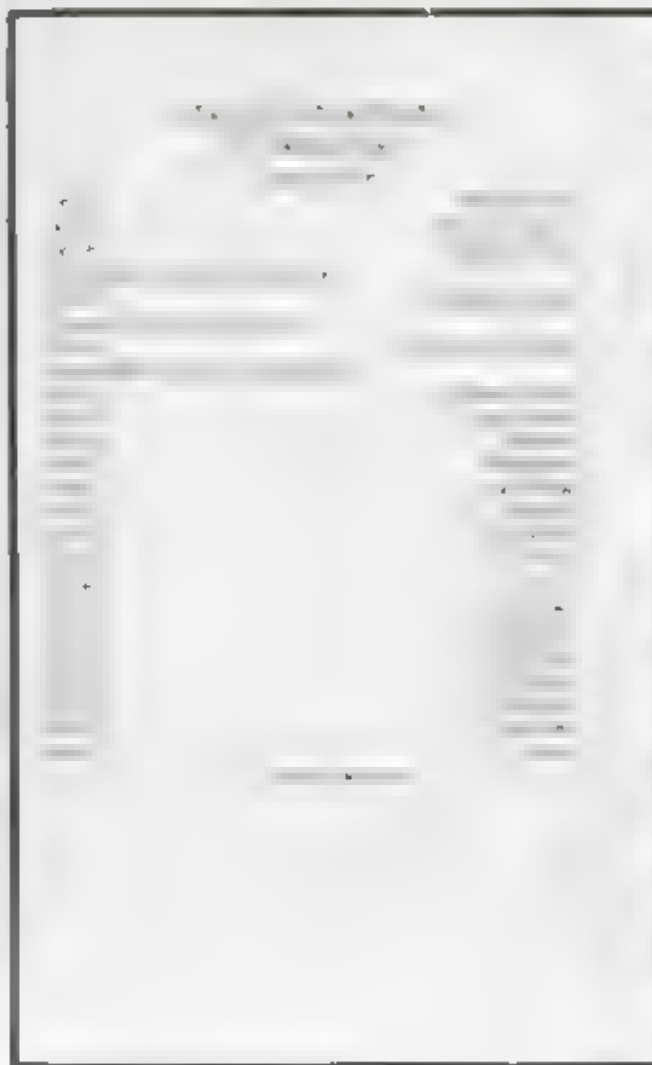

Cobb was named All District and Tate received Honorable Mention.

Great expectations held by basketball coaches

Improvement and great expectations for the future were what the JV sophomore and ninth grade black gold basketball teams had in common according to their coaches for the '83-84 season.

JV Coach Bud Birks said he thought the JV "performed well as a team as the year progressed."

JV post player Chris Garrett said he thought their best game was against Andrews, which Snyder won 86-60.

Wing and post player Mark Daniel said as the season progressed, "We used team work rather than individual performances."

Coach Birks said, "This is a talented bunch and I anticipate great things from them in the future."

The JV season record was 24-5.

Coach Mackey Greene, sophomore coach, said if he could go back and do it again, one change he would make would be to have an easier schedule.

Sophomore player Jerry Dubose said he thought a "difference of strategy might have made a better team."

The sophomore season record was 3-10.

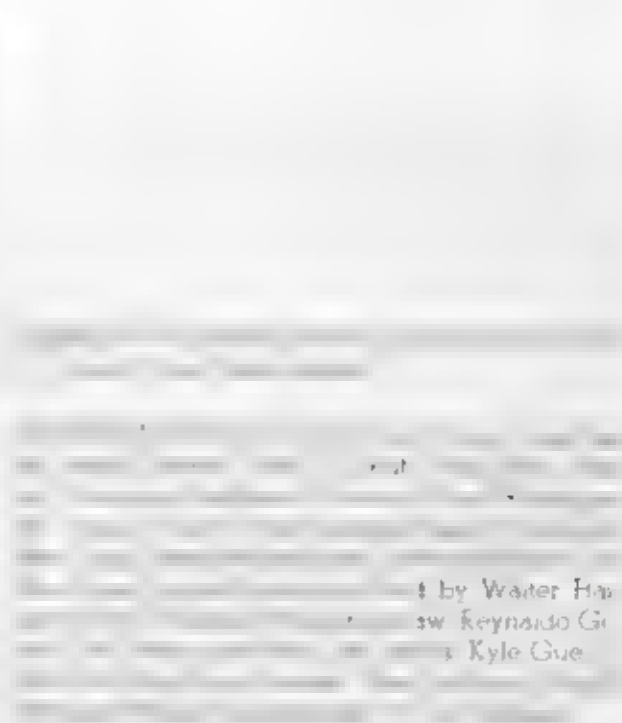

"Our team play and competitiveness improved greatly," said Coach Walter Hargrove about his freshman black team's overall improvements.

He said he would "stress teamwork and competitiveness even more than we did in regard to replaying the season."

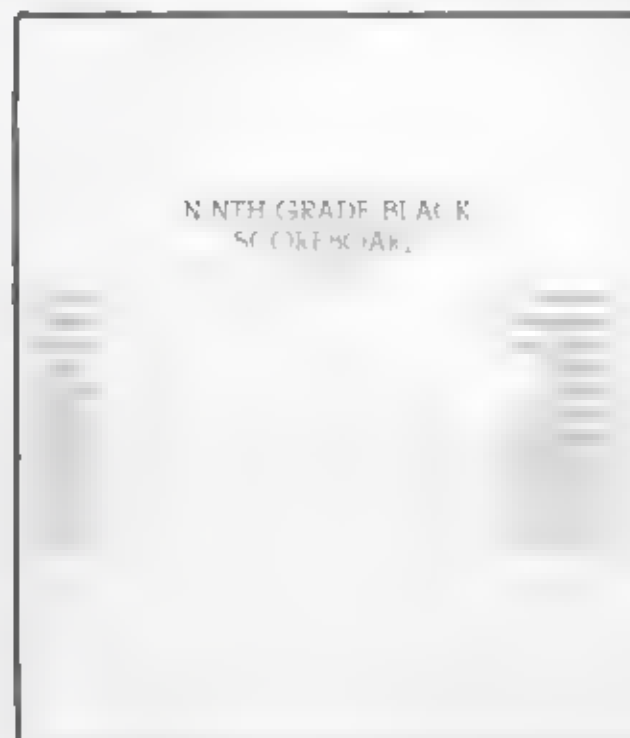

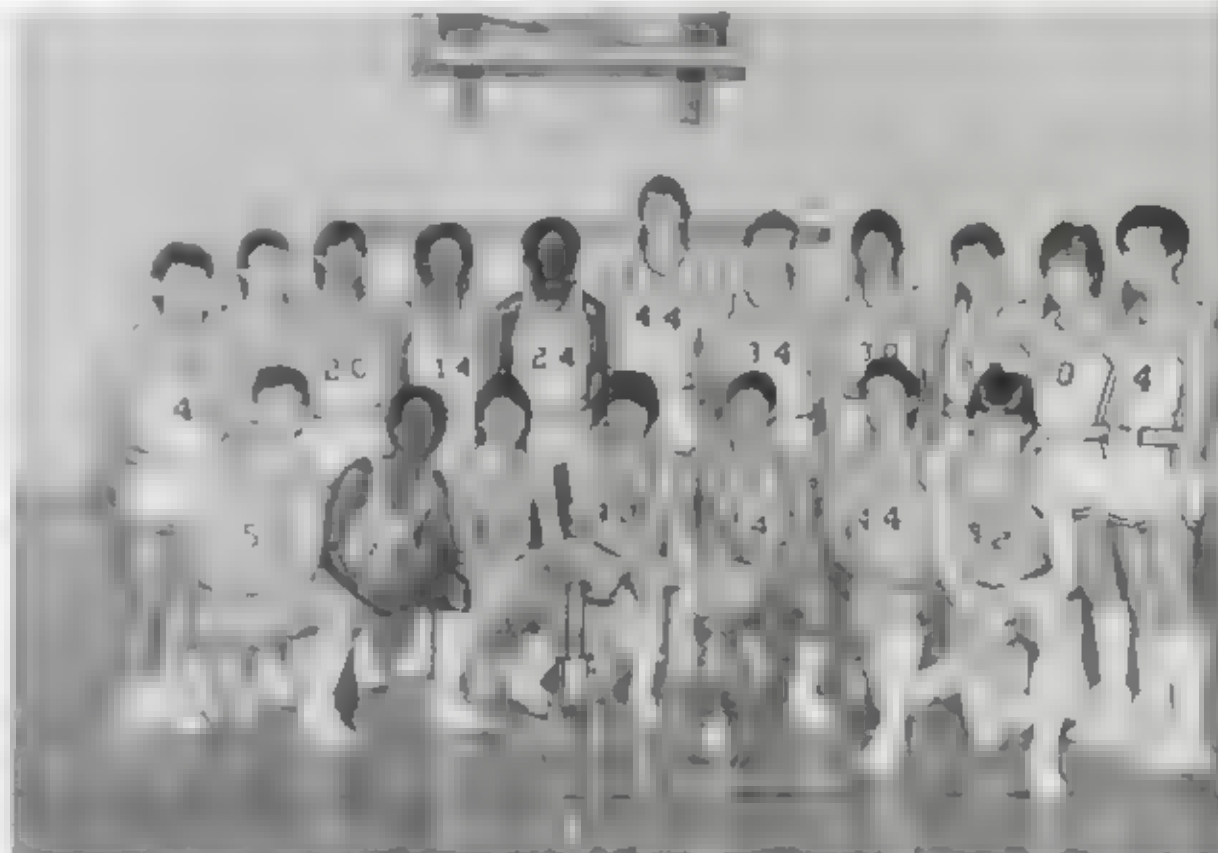

The freshman black team record was 5-6.

Freshman Gold team Coach David Creswell said his team got better as the season went along. Their season record was 3-6.

Girls' hard work shows in results

"Grest. The girls worked really hard and it showed in their performance at the track meets. This was the most girls that we ever sent to regionals and the most records we've ever broken in a track season and I was very proud of the girls," said Head Coach Patty Grummett about her track girls' season.

The Lady Lyners qualified for recognition in six ways. The events were the 400m relay, 400m, 800m, 1600m relay, 1600m and long jump.

4x4m relay team members were Amanda Kallberg, Katrina Kopp, Jenna Anderson

Karen Thompson with alternate Stephanie M. Knight and Kim Keering Thompson qualified for the 400m and Kitchens ran the 200

The 1600m relay team was made up of Kitchens, Reed Thompson and Dora Hernandez. Thompson also qualified for the triple and long jumps.

She was also the only female in the roster to qualify for the 100-meter dash, but she finished her race in 17.4 seconds, well behind the other women.

At the state level, The impact of tax severity is also

Successful season for tracksters

For most of the tracksters on the varsity squad and the boys' track and field team, the track season was a success. They were pleased with their overall performance.

Coach Robert Crawford said the tracksters' best event was their discus throw. Overall, their season was a success.

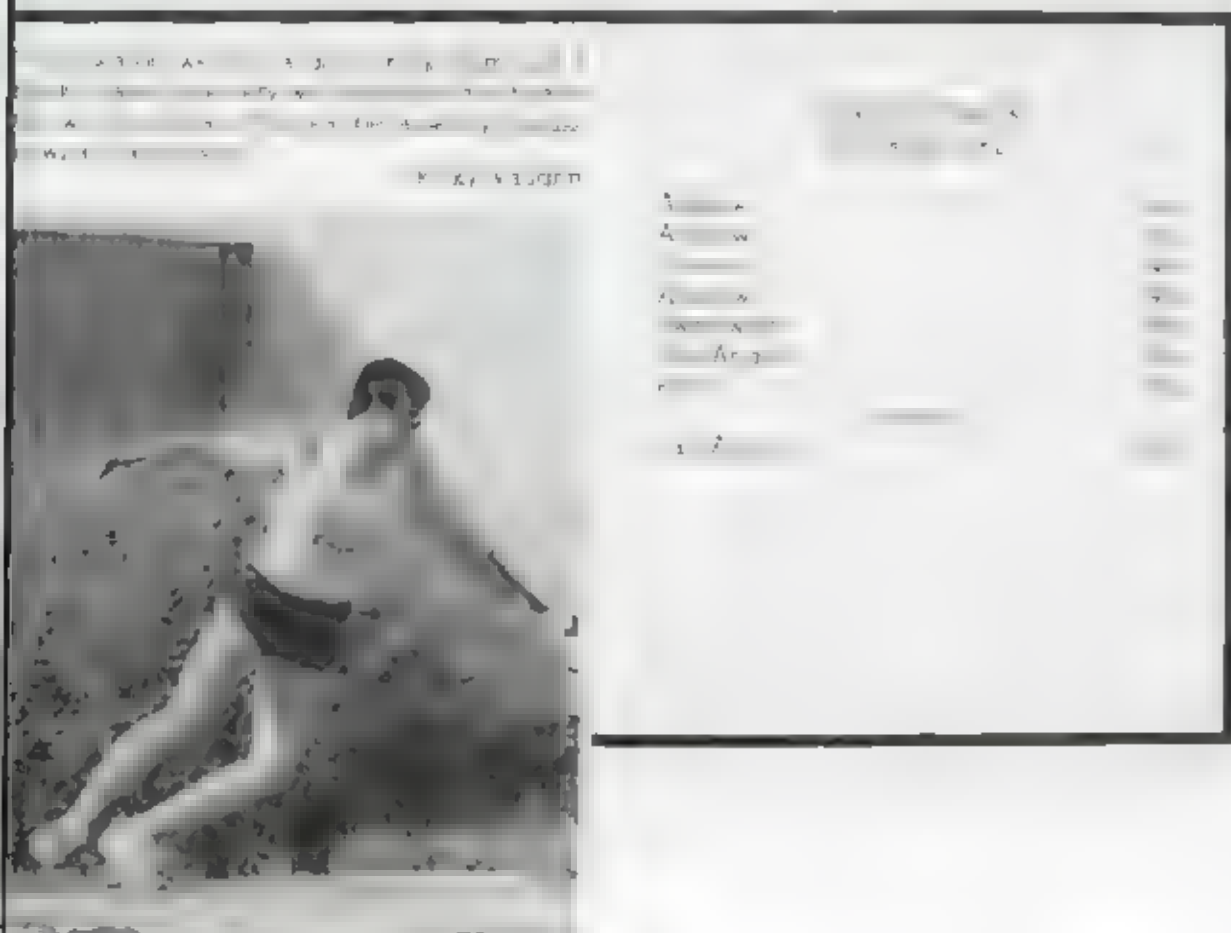

Three members of the team participated in regional competitions. In the long jump, Kyle Vaughn put and Ricky Vaughn.

Vaughn said, "If I had any change, I would not have thrown the shot at the beginning of the year and just thrown the discus."

Jimmy H. said the season was pretty good, but he felt it was a lot better if we all went out and gave 100% and let winning and losing take care of itself. If we do that, whatever happens, we are winners.

Logan Greenway said, "We have improved in the shot put and discus. One has improved in the shot put. We have performed pretty good."

Golfers fulfill potential

"I really had no solid belief that we could qualify for the state tournament. With Lisa (Franklin) playing well I knew we should win district, but I think that we have played up to our potential this year," said Coach Ian Kruse about the '83-'84 season of girls' golf.

According to their statistics, the A team (Franklin, Xalyn, Harris, Rebekah Powell, Leslie Light and Susan Hamlett) had a very good season. They came in second at regional, one stroke out of first place with Franklin regional medalist. From there they went on to state to come in second with Franklin coming in third as medalist.

"I feel like I have worked hard as well as our whole team, and we have achieved some great things," Franklin said.

As individuals and as a team, the girls had different comments. Light said, "I could've played better and worked harder. I think the team played very well for being such a young team."

Hamlett said, "During district I didn't do very good, but as a team, we did do good."

The B team members were Michelle Holder, Lea Ann Thompson, Angie Lay, Camille Reed, Stacy Randall and Stephanie Blair.

Lay summed up the season by saying, "Golf is a very complicated game that takes many hours of practice and dedication."

As for the year, Kruse said, "Next year will be an exciting year. With the nucleus of our future teams qualifying for state, we will know what we want to accomplish each year. This is a big plus as far as confidence and experience go."

Golfers improve, learn

"I have improved my over all game. I have learned what it is like to really play as a team and give my best as a team player." said senior Billy Newton about his season on the varsity golf team.

Junior Mike McKee summed it up like this. "We have improved every tournament. Our scores have been better each tournament from the start to the last. Individually, I improved somewhat, but I haven't gotten back to what I used to do." He finished the Andrew Murray with a 163.

The team, coached by Mackey Greene, did not do as well as hoped. The "B" team finished the season 14th and the "A" team finished the season 11th in the state.

"I think I have gained experience. I have learned what it is like to play at first and what it is like to play as a freshman," said Gary Green when he was asked if he gained experience for next year.

Junior Lance Leatherwood said that the more tournaments you play in, the more experience you have in your game.

For the '84-'85 season, there will be seven returning golfers, so the experience gained this year should pay off next year.

Racketeers end disappointing season

"To improve you have to suffer, to be better you have to try hard," the team said. That was the motto of the varsity tennis team, led by freshman Shanda Wiman, member of the varsity tennis team.

The team ended a disappointing season as planned. They played second in the Taylor Tournament and third in the Angelo Lake View Tournament. Their season record was 7-1. And although they had high hopes they didn't make it to regionals.

"Shanda and I ended our tennis season with disappointment. After winning two of our three tournaments and playing second in the other, we had hopes of qualifying for regionals. We had the ability to beat all the other teams in our district yet we also were capable of being beaten by any of the teams. I guess it was just the other teams' time to win," said Junior Shanda Hart, Shanda's partner, and Wiman's chances in district.

Even though the team's season didn't end like it was hoped, everyone had their good matches and bad matches. Freshman Shanda Wiman said, "I probably played my best match against Fort Stockton's Monica [last year]. I had been hearing about her since last summer so I had been terrified to play her. I guess my worst match was at the finals of the Abilene Tournament."

Dee Butler, freshman, said, "The only thing I would change about this season is being more serious during workouts and I think with the year behind me, I will do better just from the experience."

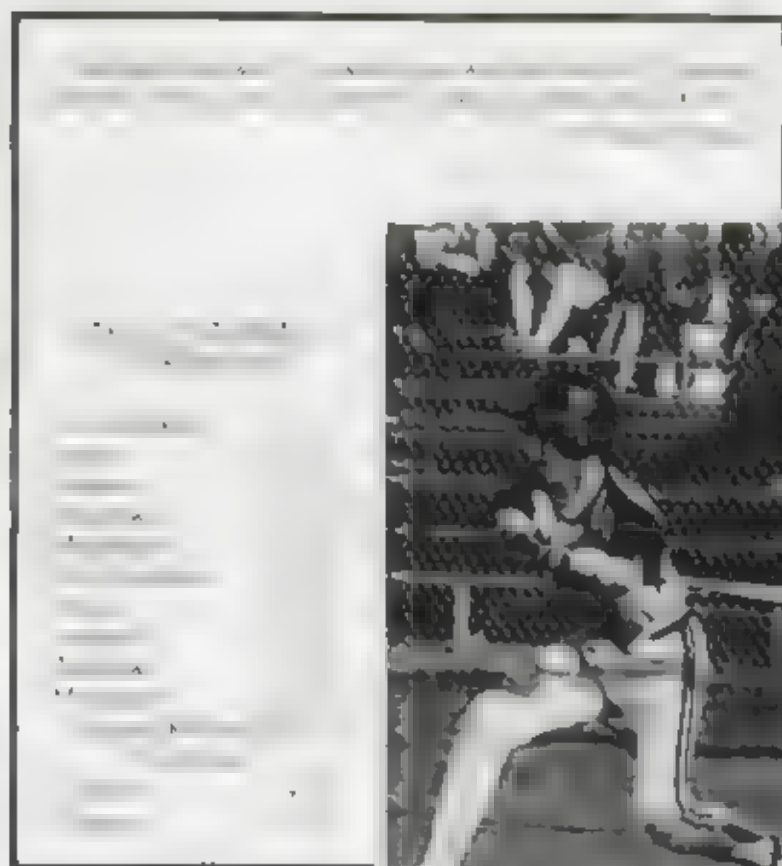

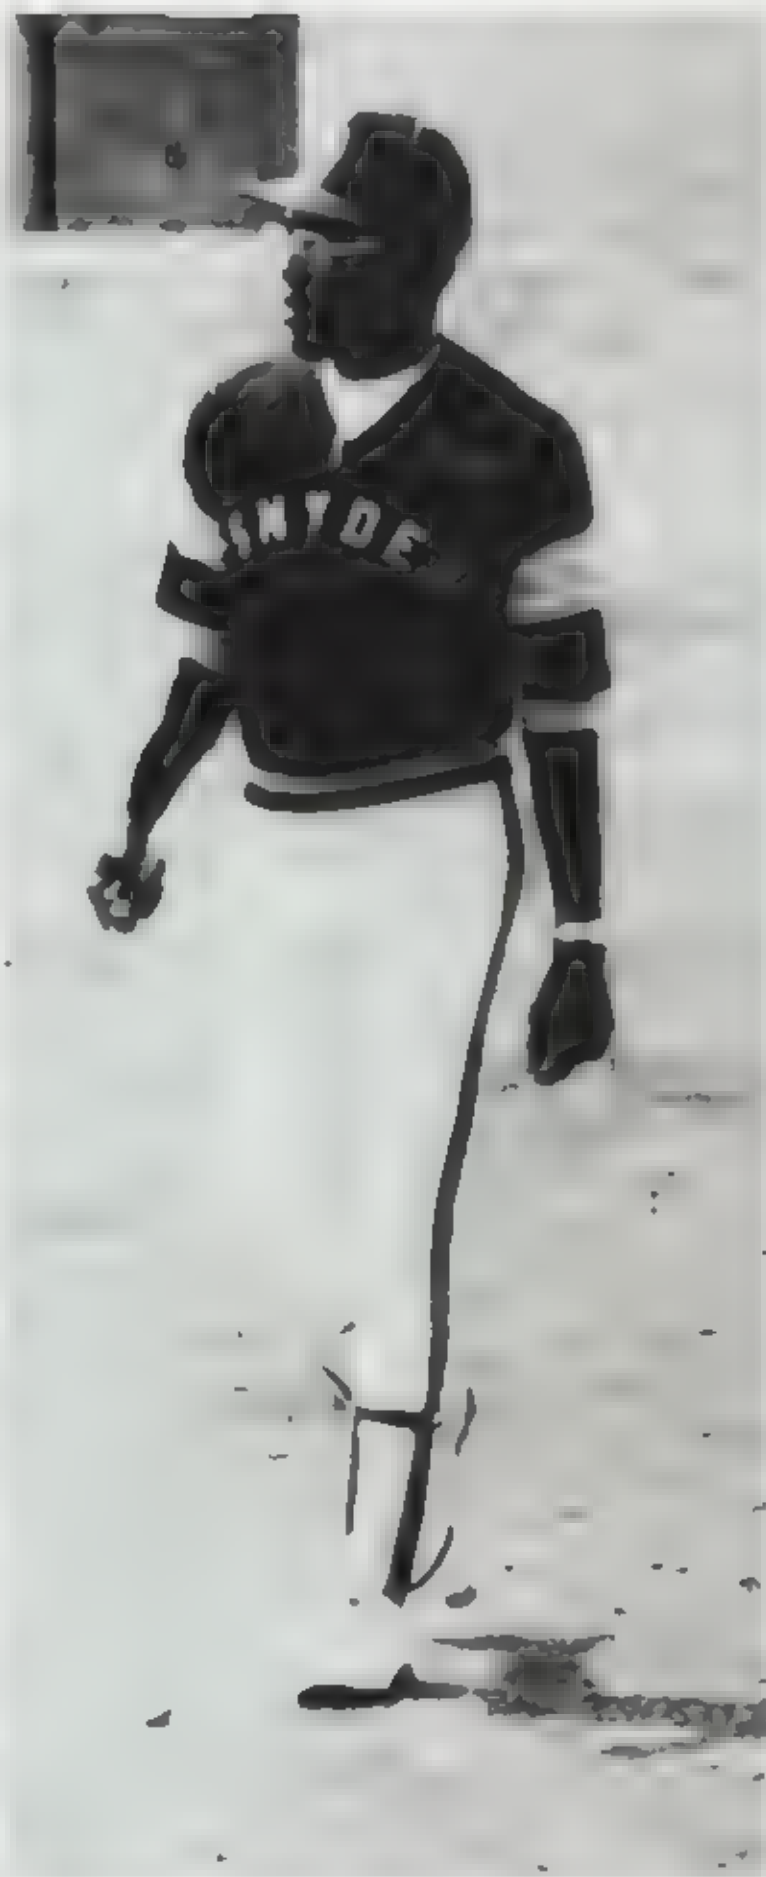

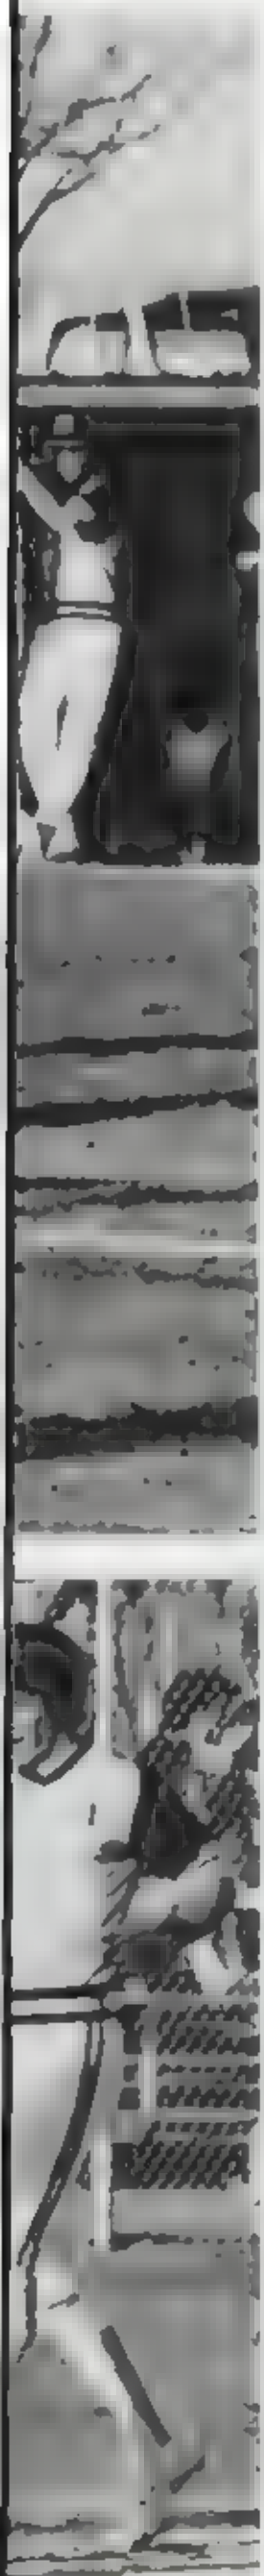

"I probably would have changed a thing because we did better than expected," said Sophomore Mike McWilliams. When asked if he would change anything,

Kim Blumenstock

The team's twenty-second win was a 4-1 victory over Alameda on February 2nd. The team's twenty-third win was a 4-1 victory over Alameda on February 9th.

Tracksters set new school records

A series of victories led to a new school record for the boys' 100m dash. The record was broken by Chad Peterson, who ran the race in 10.64 seconds.

Katrina Reed, Thompson and Hernandez also erased the old mark for the 1600m, setting a new record at 4:04.54. Hernandez showed the strength of the girls' track team as she set a new record for the 800m run, running an impressive 2:33.77 time.

Roselia Aguirre and Gail Costillo also displayed their athletic abilities by setting new marks in the 1600m and 3200m runs respectively. Aguirre ran the 1600m in 6:42.51 while Costillo paced herself in the 3200 with a time of 15:34.00.

In boys' track, three records were broken with Chad Peterson's lightning-like legs being a large reason for two of them broken. Peterson blazed through the 100m for an impressive mark of 10.64.

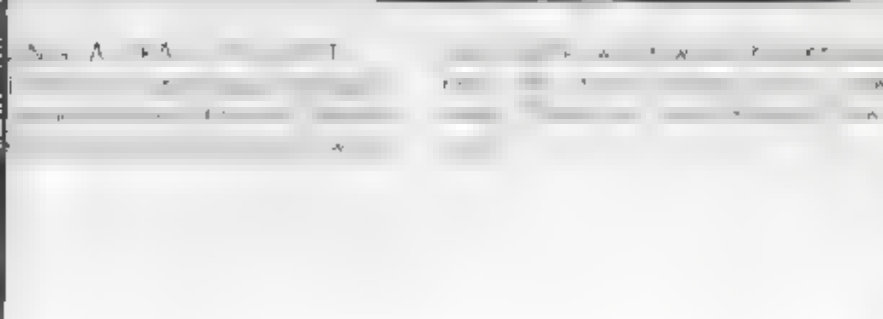

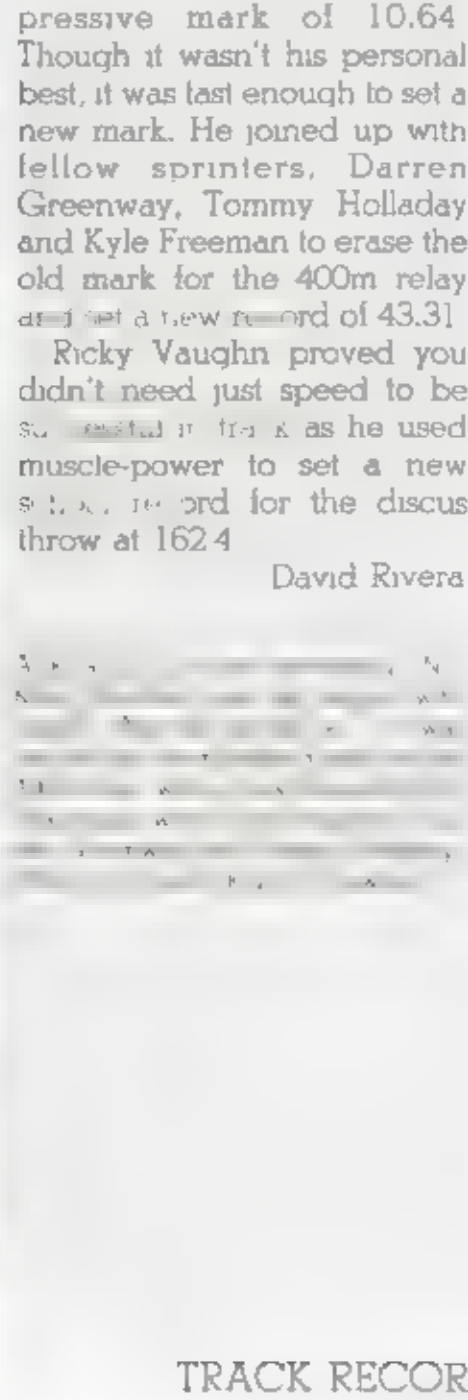

Though it wasn't his personal best, it was fast enough to set a new mark. He joined up with fellow sprinters, Darren Greenway, Tommy Holladay and Kyle Freeman to erase the old mark for the 400m relay and set a new record of 43.31.

Ricky Vaughn proved you didn't need just speed to be successful in track as he used muscle-power to set a new school record for the discus throw at 162.4.

Not all fun and games

Hard work, but all remembers special times

Many cheerleaders grow up to be cheerleaders. And when they truly become cheerleaders, they usually find that it's not all fun and games. They work hard with a lot of hard time.

Hard work involves practicing for long hours, studying for tests, and trying to make the sport fun. It's not all fun and games. It's a lot of hard work, but they have fun too.

I was very proud to represent the freshman team this year. And Kathy Walter.

The privilege to be a cheerleader. My name is Kathy Walter, cheerleader.

I love being a cheerleader. It's great to get the teams know what we're doing for them with our cheerleaders. Dance, dance, dance.

But during the year, there were some funny and special moments too.

Take for instance when we were in the cheerleader line. It was a very special day. And when we were in the line, we attempted to do a trick. And somehow managed to pull it off. It was a very special moment.

papers were attempting to get out of the line. And when they were out of the line, they were out of the line.

The cheerleaders were out of the line. And when they were out of the line, they were out of the line.

When we were in the line, we were in the line. And when we were in the line, we were in the line. And when we were in the line, we were in the line.

When we were in the line, we were in the line. And when we were in the line, we were in the line.

perfect cheer and dance routines were our best and our most special. It all went so fast and so quickly.

When we were in the line, we were in the line. And when we were in the line, we were in the line.

When we were in the line, we were in the line. And when we were in the line, we were in the line.

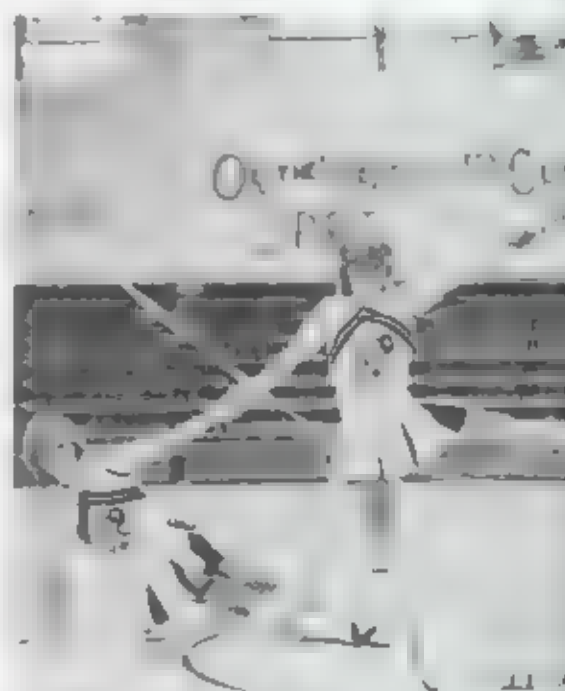

When we were in the line, we were in the line. And when we were in the line, we were in the line.

When we were in the line, we were in the line. And when we were in the line, we were in the line.

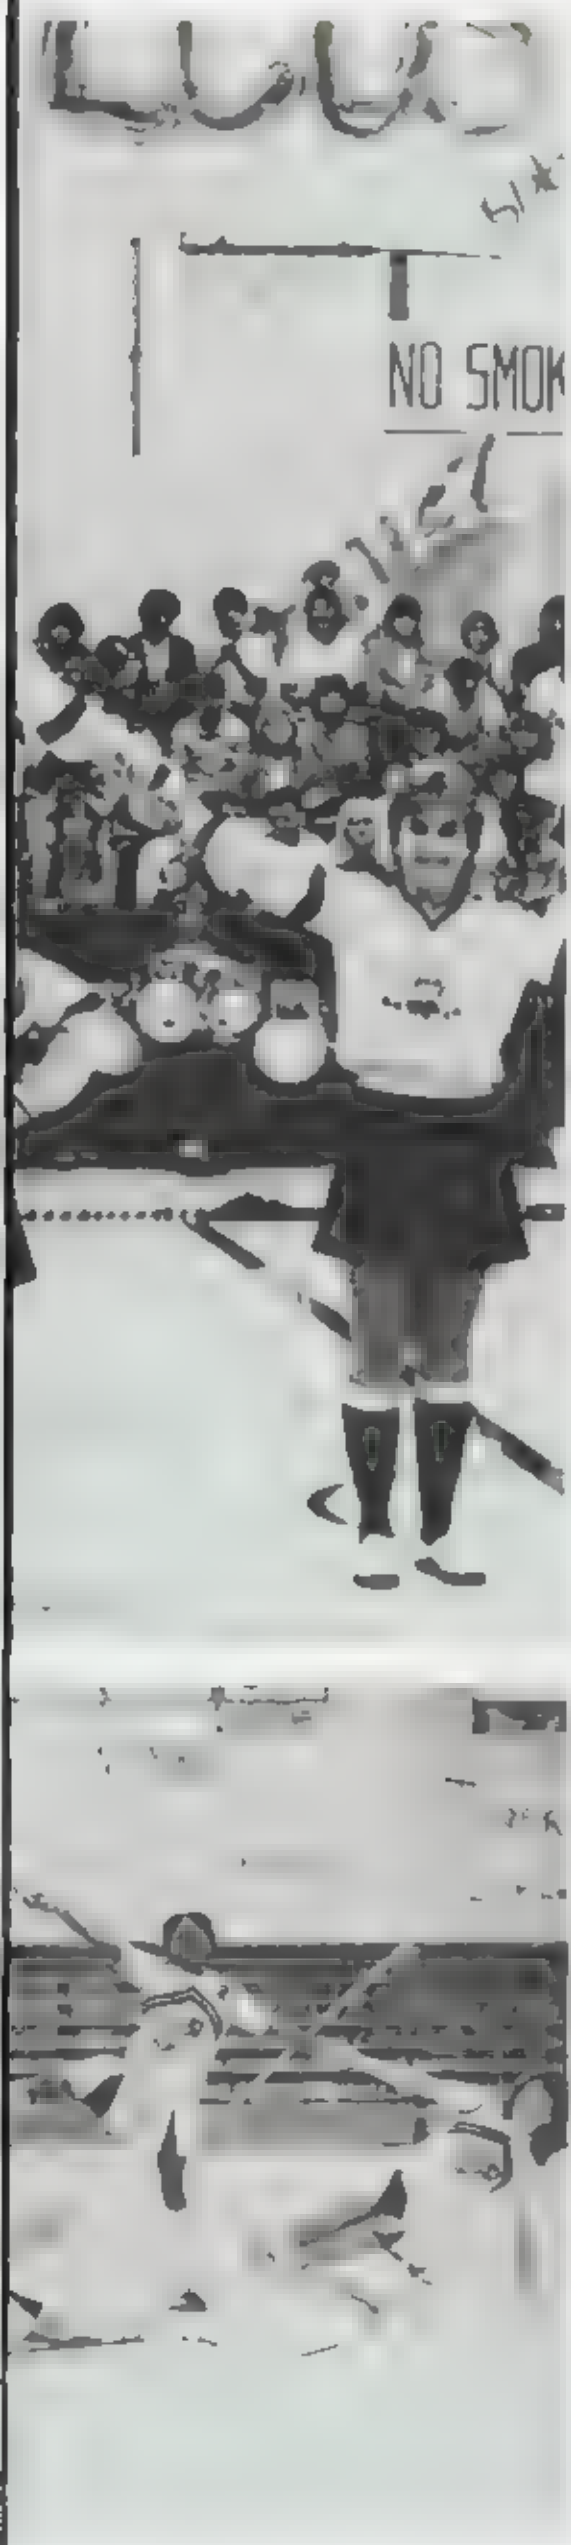

Suzette Harris

When we were in the line, we were in the line. And when we were in the line, we were in the line.

When we were in the line, we were in the line. And when we were in the line, we were in the line.

Athletic Awards

Chad Peterson was named Male Athlete of the Year, Best Defensive Player on the basketball team and Co-Most Valuable Player on the baseball squad

Paul Tate - was named Co-Most Valuable Player on the baseball squad and received the Fighting Tiger award in basketball.

Sonny Cobb was named Most Valuable Player in basketball.

Willie Greathouse - recieved the Most Improved Player Award in basketball

Eddie McClure - received the Robert Hobbs Award

Chris Wiman was named Most Valuable Player in Tennis

Time Well Spent

It is probably safe to say that all the hard work and dedication from each person paid off. The prestigious Rockefeller Free Arts and Education Award recognizes the many accomplishments and achievements of the students. From band going to state, to VICA going to state, to One-Act winning district, plus many, many more accomplishments, this year finished with life's finest.
